Dear Plans Reviewer,

Consider this as a statement by Juan C. Rivera, P.E, regarding the project referenced above.

The proposed permit above will be adding three EG4 PowerPro Batteries for a full home backup. Based on my evaluation, the existing electrical is up to code and the proposed battery add-on complies with NEC2020 and all other local codes. The contractor is responsible for installing the solar system according to the manufacturer's recommendations and instructions.

Please feel free to contact me at 813-334-5530 if you have any questions or require any further information.

Regards,

Juan C. Rivera, P.E
