PLAN REVIEW IS REQUIRED FOR: Any property located within a Flood Zone OR any Substantial Improvement - Any repair, reconstruction, rehabilitation, alteration, addition, or other improvement of a building or structure, the cost of which equals or exceeds 50% of the market value of the structure before the improvement or repair is started. If the structure has sustained substantial damage, any repairs are considered substantial improvement regardless of the actual repair work performed. The term does not, however, include either: (1) Any project for improvement of a building required to correct existing health, sanitary, or safety code violations identified by the Building Official and that is the minimum necessary to ensure living conditions; or (2) Any alteration of a historic structure, provided that the alteration will not preclude the structure's continued designation as a historic structure.
