Brody,

Thank you for reaching out as to what is required by the dept for this property along with documentation and historical context. As noted, the property at 20548 S. US.441 has been used and continues to be used to access this property therefore the FDOT requires no new access or upgrade to the existing driveway being used to access the property at this time. You are good to go.
If you have any questions or concerns, please don't hesitate to reach out. Thanks js.

EXTERNAL SENDER: Use caution with links and attachments.

Justin

I have a customer that is replacing the home on this parcel. The previous home was removed around 2013. They currently use a neighbors entrance off US-441 which is not part of their easement. I am attaching a copy of their site plan, their survey and a graphic showing what they are using. Please give me a call to discuss what they need to do.

Thanks

Brody
