Troy;

Please consider this a will serve commitment for the Busy Bee fuel station in Ellisville. They will receive Water and Wastewater from the County owned/NFWUA operated treatment plants in Ellisville. Their utility needs were incorporated in the utility plans for Ellisville.

Please let me know if you need additional documentation

David & Jennifer,

NFWUA is being asked to send a formal document indicating service commitment to Busy Bee. I'm asking for folks to reconsider this ask. Although NFWUA is providing operational management of the systems, we don't own the service nor are we a party to the development transaction. NFWUA doesn't want to create obstacles on this project but I do have concerns about am raising this item so we can discuss.

Best Regards,

Shannon Roberts

Shannon,

This is the item that Chad was asking for a letterhead memo for water/wastewater services to Busy Bee. He stated the City sends one to the county and should have a generic form for submittal.

Thank you,
Robert Domingue

One of the items we need is addressing water and sewer. How do we document it being served, can you guys arrange for us to get something from the Authority confirming service ?

Troy Crews
Building and Zoning Director
