Aaron I got your message, if the clay is very shallow that will be great. However if we get the foundations dug and encounter clay we will have to do the special foundations. We will get them ready.

Aaron according to the letter that we work off of from Phil Bishop these are not naturally wooded lots, therefore they will need testing and or special foundation plans. In order to meet the City deadline of 12-31-21 we need all plans no later than Monday 12-6-21 in order to complete review thanks.
