RE: Emergency equipment purchase

During the storm on December 24th 2020 two vital pieces of network equipment were destroyed, a Cisco Catalyst 3750 core network switch and a Tripp lite battery backup appliance. The Cisco 3750 switch acts as a core network switch that provides VoIP and internet distribution for the Columbia County Courthouse and Administration buildings.

A temporary work around was put in place but is suffering from severe performance degradation due to it working in a capacity it was not designed to operate. The VoIP telephones are missing key functions and services until this switch is replaced.

Per your authorization, I am placing an emergency order for a replacement of the network switch in the amount of **\$7,565.35**

If you have any further questions, please let me know.
