Additions Application Checklist

(Use if this will be attached to existing roofline)

- ☐ 2nd pg of Permit Application with PROPERTY OWNER'S Signature & Notarized Contractor Signature - The deeded property owner must sign page 2 of Application
- ☐ Subcontractors Verification Form, signed by the license holder/contractor or authorized Qualifier for each trade
- ☐ License Holders (Contractors) must complete a "Letter of Authorization" for who is authorized to pull the permit on their behalf
- ☐ If an Owner Builder, Notarized Owner Disclosure Statement is required
- ☐ Proof of ownership by way of Recorded Deed or Property Appraiser's parcel details printout-- visit <https://search.ccpafl.com/>
- ☐ Corporation or Trust Details listing authorized signor(s) and POA forms if necessary
- ☐ 911 Address applications or verifications are submitted/found online. Visit <https://www.columbiacountyfla.com/BuildingandZoning.asp>
- ☐ Residential Checklist completed including Product Approval Code Specifications Sheet
- ☐ **Site Plan:** FOLLOW THE SITE PLAN CHECKLIST, included in this packet.
- ☐ Recorded Notice of Commencement; before 1st inspection
- ☐ For hard copy apps: 2 sets of plans folded to 9x12 size with Signed & Sealed Engineering; For online apps: 1 set of Engineered plans digitally sealed (verifiable)
- ☐ For hard copy apps: 2 sets of Truss Engineering Signed & Sealed; For online apps: 1 set of Truss Engineering digitally sealed (verifiable)
- ☐ For hard copy apps: 2 sets of Energy Codes & Manual J Forms; For online apps: 1 set of Energy Codes & Manual J Forms
- ☐ Provide any other pertinent information we should know: Development Permits/Zoning Applications, if applicable
- ☐ Approved and Signed Site Plan from Environmental Health for septic; contact 386.758.1058. If on City Water or Sewer, City Availability Letter required. If on the Ellisville Water System; contact 386.719.7565 for review
- ☐ Any other necessary documents requested (Floodplain Notice to Owner, Additions Affidavit, etc...)

PLAN REVIEW IS REQUIRED FOR: Any property located within a Flood Zone OR any Substantial Improvement - Any repair, reconstruction, rehabilitation, alteration, addition, or other improvement of a building or structure, the cost of which equals or exceeds 50% of the market value of the structure before the improvement or repair is started. If the structure has sustained substantial damage, any repairs are considered substantial improvement regardless of the actual repair work performed. The term does not, however, include either: (1) Any project for improvement of a building required to correct existing health, sanitary, or safety code violations identified by the Building Official and that is the minimum necessary to ensure living conditions; or (2) Any alteration of a historic structure, provided that the alteration will not preclude the structure's continued designation as a historic structure.

PROPERTY INFORMATION

Subject Property Address: _____
City/State: _____ Zip Code: _____

CONTACT INFORMATION

Full Name: _____
Company Name/Affiliation (if applicable): _____
Contractor License #: _____
Phone Number: _____ **(MUST BE CONTRACTOR OR OWNER IF OWNER BUILDER)**
Email Address (required): _____

GUIDELINES

1. If the structural components for the new structure are attached and anchored in any way to the host structure, the construction drawings must clearly indicate how the attachment/anchoring will be accomplished, in accordance with Columbia County LDRs and the Florida Building Code (FBC), as adopted by Columbia County.
2. Drawings must specify the size and type of the members of the host structure to which the new components are being attached, per Columbia County LDRs and FBC requirements.
3. Drawings must indicate the type, size, and spacing of all anchors/fasteners, as required by the FBC and local ordinances.
4. If the drawings are signed and sealed by a Florida licensed architect or engineer, that professional assumes responsibility for the new structure and the structural integrity of the host structure to which the new structure is connected, as required by Florida Statutes Chapter 471/481 and Columbia County LDRs.
5. If the drawings include a disclaimer from the architect/engineer stating that the property owner and/or contractor must verify the host structure's adequacy, then one of the following must be provided:
 - a. A signed/sealed document from a Florida licensed architect or engineer attesting that the host structure will support the additional loads, per FBC and Columbia County LDRs.
 - b. In lieu of 5a, the contractor may provide this Affidavit.

STATEMENT TO ATTEST

As the contractor for the proposed new structure at the above address, I have personally inspected, together with the property owner, those portions of the existing structure to which the new structure will be attached for structural support. I confirm that the drawings and details submitted with this permit application accurately represent the existing conditions of the host structure.

I have advised the property owner that, in my best judgment and based on my experience and knowledge of structural adequacy, the members of the existing structure to which the new structure will be attached are sound, free of rot or deterioration, and capable of supporting all imposed structural loads, in compliance with the Florida Building Code, Columbia County LDRs, and all applicable ordinances.

By signing below, I hereby declare that I will hold Columbia County, Florida, harmless and release it from any responsibility or liability for adverse consequences or failures resulting from this work. I further agree not to initiate or pursue any legal action against Columbia County, Florida, for such consequences or failures. I have read and understand this affidavit and the requirements for using an existing structure as support for a new addition.

I have read this complete form and understand the issues I may experience using an existing slab.

Subcontractor Verification Form

APPLICATION/PERMIT # _____ JOB NAME _____

THIS FORM MUST BE SUBMITTED BEFORE A PERMIT WILL BE ISSUED

Columbia County issues combination permits. One permit will cover all trades doing work at the permitted site. It is **REQUIRED** that we have records of the subcontractors who actually did the trade specific work under the General Contractor's permit.

NOTE: It shall be the responsibility of the general contractor to make sure that all of the subcontractors are licensed with the Columbia County Building Department.

NOTE: If this should change prior to completion of the project, it is your responsibility to have a corrected form submitted to our office, before that work has begun.

Violations will result in stop work orders and/or fines.

NOTICE TO APPLICANT/OWNER REGARDING FLOODING

Please read carefully before you begin your construction project!

WARNING: The degree of flood protection required by County's floodplain ordinance and the Florida Building Code are considered as minimum regulatory purposes only. The floodplain ordinance and Florida Building Code are based on scientific and engineering considerations, but do not include actual, observed events of flooding that may have occurred at your property. You should also keep in mind that larger floods have, can, and will occur from time to time. Flood heights may be increased by man-made or natural causes. Approval of your permit under the floodplain ordinance does not imply that the permitted structure will be free from flooding or flood damage. The Special Flood Hazard Areas and Base Flood elevations are contained in the Flood Insurance Study and shown on Flood Insurance Rate Maps. The County adopts these maps for purposes of compliance with the National Flood Insurance Program, but makes no representations or assurances of their accuracy or reliability. The County does not maintain, track, or provide flood history data for any particular parcel of land.

THERE IS NO GUARANTY OF VESTED USE, EXISTING USE, OR FUTURE USE CREATED BY YOUR COMPLIANCE WITH THE FLOODPLAIN ORDINANCE. YOU ARE RESPONSIBLE FOR ASSESSING YOUR OWN PARTICULAR FLOOD RISK AND YOU ARE ENCOURAGED TO SPEAK WITH NEIGHBORING OWNERS AND THE PREVIOUS OWNERS OF YOUR LAND TO OBTAIN FIRST-HAND KNOWLEDGE OF YOUR PROPERTY'S SPECIFIC FLOOD HISTORY.

DISCLAIMER OF LIABILITY. The County floodplain ordinance does not create liability on the part of Board of County Commissioners of Columbia County or any officer or employee thereof for any flood damage that results from reliance on the ordinance, or any administrative decision lawfully made thereunder. Again, it is your responsibility to assess your property's flood risk and build accordingly.

For more information, see the Columbia County Code of Ordinances, Land Development Regulations, Article 8, at: https://library.municode.com/fl/columbia_county. Additional information can also be found on the County Building Department's web page: <https://www.columbiacountyfla.com/BuildingandZoning.asp>.

ACKNOWLEDGEMENT

I have read and understand the foregoing **NOTICE TO APPLICANT/OWNER REGARDING FLOOD ZONES**. I understand it is my responsibility to determine my property's flood risk, and that the County has made me no assurances that my property can not or will not flood.

ROOFING UNDERLAYMENT AFFIDAVIT

Columbia County, Florida
Building Department
135 NE Hernando Avenue
Lake City, Florida 32055
Phone: 386-758-1008

REQUIRED FOR WALK-IN OR PAPER SUBMITTALS

www.columbiacountyfla.com

Job Address: _____

I (Print Name) _____, as a Florida license Roofing Contractor or an Owner Builder, I understand to comply with the 2023 Florida Building Code 8th Edition underlayment requirements, I must select an option for sealing the roof deck.

The options are summarized below...

☐ A self-adhering polymer-modified bitumen underlayment complying with ASTM D1970 applied over the entire roof.

☐ A minimum 4-inch-wide strip of self-adhering polymer-modified bitumen complying with ASTM D1970 or a minimum 3 ³/₄ - wide strip of self-adhering flexible flashing tape complying with AAMA 711, applied over all joints in the roof decking. A felt underlayment complying with ASTM D226 Type II, ASTM D4869 Type III or IV, or ASTM D6757, or a synthetic underlayment meeting the performance requirements specified, is required to be applied over the strips/tape over the entire roof.

☐ Two layers of felt underlayment comply with ASTM D226 Type II or ASTM D4869 Type III or IV, or two layers of a synthetic underlayment meeting the performance requirements specified, lapped and fastened as specified.

☐ Other (explain) _____

Contractor/Owners Signature _____

FINAL INSPECTION & CERTIFICATE OF COMPLETION: This completed form and photographs must be uploaded to your permit via online at the Application Submission login (link) [Welcome to Columbia County Online \(columbiacountyfla.com\)](http://Welcome to Columbia County Online (columbiacountyfla.com)).

If for a roofing permit, clearly visible in the Photographs must be the permit number or address and must include a ruler or measuring device to confirm nail spacing and overlaps including drip edge and valley flashing. (Not required for additions or New Residential)

135 NE Hernando Avenue
Lake City, Florida 32055
Phone: 386-758-1008

Florida Statutes Chapter 489.103:

www.columbiacountyfla.com

_____ 1. I understand that state law requires construction to be done by a **licensed contractor** and have applied for an owner-builder permit under an exemption from the law. The exemption specifies that I, as the owner of the property listed, may act as my own contractor with certain restrictions even though I do not have a license.

_____ 2. I understand that building permits are not required to be signed by a property owner unless he or she is responsible for the construction and is not hiring a **licensed contractor** to assume responsibility.

_____ 3. I understand that, as an owner-builder, I am the responsible party of record on a permit. I understand that I may protect myself from **potential financial risk** by hiring a **licensed contractor** and having the permit filed in his or her name instead of my own name. I also understand that a contractor is required by law to be licensed in Florida and to list his or her license numbers on permits and contracts.

_____ 4. I understand that I may build or improve a one-family or two-family residence or a farm outbuilding. I may also build or improve a commercial building if the costs do not exceed \$75,000. The building or residence **must be for my own use or occupancy**. It may not be built or substantially improved for sale or lease, unless I am completing the requirements of a building permit where the contractor listed on the permit substantially completed the project. If a building or residence that I have built or substantially improved myself is sold or leased within 1 year after the construction is complete, the law will presume that I built or substantially improved it for sale or lease, which violates the exemption.

_____ 5. I understand that, as the owner-builder, I must provide **direct, onsite supervision** of the construction.

_____ 6. I understand that I **may not hire an unlicensed person** to act as my contractor or to supervise persons working on my building or residence. It is my responsibility to ensure that the persons whom I employ have the **licenses required by law** and by county or municipal ordinance.

_____ 7. I understand that it is a frequent practice of unlicensed persons to have the property owner obtain an owner-builder permit that erroneously implies that the property owner is providing his or her own labor and materials. I, as an owner-builder, **may be held liable** and subjected to **serious financial risk** for any injuries sustained by an unlicensed person on his or her employees while working on my property. My **homeowner's insurance may not provide coverage** for those injuries. I am willfully acting as an owner-builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

_____ 8. I understand that I may not delegate the responsibility for supervising work to a licensed contractor who is not licensed to perform the work being done. Any person working on my building who is not licensed must work under my direct supervision and must be employed by me, which means that I **must comply with laws requiring the withholding of federal income tax and social security contributions** under the Federal Insurance Contributions Act (FICA) and **must provide workers' compensation** for the employee. I understand that my **failure to follow these laws may subject me to serious financial risk**.

_____ 9. I agree that, as the party legally and financially responsible for this proceed construction activity, I will abide by all applicable laws and requirements that govern owner-builders as well as employees. I also understand that the construction **must comply with all applicable laws, ordinances, building codes, and zoning regulations**.

_____ 10. I understand that I may obtain more information regarding my obligations as an employer from the Internal Revenue Service, the United States Small Business Administration, the Florida Department of Financial Services, and the Florida Department of Revenue. I also understand that I may **contact the Florida Construction Industry Licensing Board** at 850-487-1395 or <http://www.myfloridalicense.com/> for more information about licensed contractors.

_____ 11. I am aware of, and consent to, an owner-builder building permit applied for in my name and understand that **I am the party legally and financially responsible** for the proposed construction activity at the following address:

(Address of jobsite property)

_____ 12. I agree to **notify Columbia County Building Department** immediately of any additions, deletions, or changes to any of the information that I have provided on this disclosure. **Licensed contractors are regulated** by laws designed to protect the public. If you contract with a person who does not have a license, the Construction Industry Licensing Board and Department of Business and Professional Regulation may be **unable to assist you with any financial loss** that you sustain as a result of complaint. Your only remedy against an unlicensed contractor may be in civil court. It is also important for you to understand that, if an unlicensed contractor or employee of an individual or firm is injured while working on your property, you may be held **liable for damages**. If you obtain an owner-builder permit and wish to hire a licensed contractor, you will be responsible for **verifying whether the contractor is properly licensed** and the status of the contractor's workers' compensation coverage.

Florida Statutes Chapter 489.103:

_____ 13. State law requires electrical contracting to be done by **licensed electrical contractors**. You have applied for a permit under an exemption to that law. The exemption allows you, as the owner of your property, to act as your own electrical contractor even though you do not have a license. You may install electrical wiring for a farm outbuilding or a single-family or duplex residence. You may install electrical wiring in a commercial building the aggregate construction costs of which are under \$75,000. The home or building must be for your own use and occupancy. It **may not be built for sale or lease**, unless you are completing the requirements of a building permit where the contractor listed on the permit substantially completed the project. If you sell or lease more than one building you have wired yourself within 1 year after the construction is complete, the law will presume that you built it for sale or lease, which is a violation of this exemption. You **may not hire an unlicensed person** as your electrical contractor. Your construction shall be done according to **building codes and zoning regulations**. It is your responsibility to make sure that people employes by you have **licenses required by state law** and by county or municipal licensing ordinances.

_____ 14. An owner of property completing the requirements of a building permit, where the contractor listed on the permit **substantially completed the project** as determined by the local permitting agency, for a one-family or two-family residence, townhome, accessory structure of a one-family or two-family residence or townhome or individual residential condominium unit or cooperative unit. Prior to the owner qualifying for the exemption, the owner must receive approval from the local permitting agency, and the local permitting agency must determine that the contractor substantially completed the project. An owner who qualifies for the exemption under this paragraph is **not required to occupy** the dwelling or unit for at least 1 year after the completion of the project.

Before a building permit shall be issued, this notarized disclosure statement must be completed and signed by the property owner and returned to the local permitting agency responsible for issuing the permit.
