Section 105 of the Florida Building Code defines the:

Section 105.3.2 - Time limitation of application

Pursuant to Chapter 1, Section 101.2 of the Florida Building Code: An application for a permit shall be abandoned 180 days after its filing unless the application is pursued in good faith or a permit has been issued. The building official may grant extensions of up to 90 days each, upon written request with justifiable cause.

Section 105.4.1 - Permit Intent

Pursuant to Chapter 1, Section 101.2 of the Florida Building Code: A permit issued is not an authorization to violate, alter, or bypass any provisions of the technical codes. It does not prevent the building official from requiring corrections to plans, construction, or code violations. A permit becomes invalid unless work is commenced within six months after issuance, or if work is suspended or abandoned for six months after commencement.

Section 105.4.1.1 - Permit Revocation and Reissuance

If work has commenced and the permit is revoked, becomes null and void, or expires due to lack of progress or abandonment, a new permit must be obtained before proceeding.

Section 105.4.1.2 - Permit Expiration

If a new permit is not obtained within 180 days after the original permit becomes null and void, the building official may require the removal of any work commenced or completed. Alternatively, a new permit may be issued if the existing work complies with applicable regulations at the time of permit expiration and those effective between expiration and reissuance.

Section 105.4.1.3 - Active Progress

Work is considered active when an approved inspection occurs within 180 days. This requirement does not apply if work is halted due to civil commotion, strike, judicial injunction, or similar processes.

Section 105.4.1.4 - Renewal/Extension Fees

The fee for permit renewal, reissuance, or extension shall be set by the administrative authority.

Building Permit Notification

Once your application is approved, you will receive an email from the Columbia County Building & Zoning Department informing you that your building permit is ready to be issued upon payment.

Ordinance Sec. 90-75 – Construction Debris

It is unlawful to dispose of solid waste, including construction or demolition debris, except at authorized disposal sites or the county's waste facilities. Temporary storage of construction or demolition debris on-site for up to seven days is allowed, pending lawful disposal. However, debris must be removed before a certificate of occupancy is issued. The burning of construction debris or vegetative trash is allowed if done in compliance with legal permits and regulations. Disposal of solid waste, special waste, or debris in public streets, right-of-ways, or other public areas is prohibited, and no burial of vegetative trash is allowed on public property under 10 acres.

Subcontractor Verification Form

APPLICATION/PERMIT # _____ JOB NAME _____

THIS FORM MUST BE SUBMITTED BEFORE A PERMIT WILL BE ISSUED

Columbia County issues combination permits. One permit will cover all trades doing work at the permitted site. It is **REQUIRED** that we have records of the subcontractors who actually did the trade specific work under the General Contractor's permit.

NOTE: It shall be the responsibility of the general contractor to make sure that all of the subcontractors are licensed with the Columbia County Building Department.

NOTE: If this should change prior to completion of the project, it is your responsibility to have a corrected form submitted to our office, before that work has begun.

Violations will result in stop work orders and/or fines.

NOTICE TO APPLICANT/OWNER REGARDING FLOODING

Please read carefully before you begin your construction project!

WARNING: The degree of flood protection required by County's floodplain ordinance and the Florida Building Code are considered as minimum regulatory purposes only. The floodplain ordinance and Florida Building Code are based on scientific and engineering considerations, but do not include actual, observed events of flooding that may have occurred at your property. You should also keep in mind that larger floods have, can, and will occur from time to time. Flood heights may be increased by man-made or natural causes. Approval of your permit under the floodplain ordinance does not imply that the permitted structure will be free from flooding or flood damage. The Special Flood Hazard Areas and Base Flood elevations are contained in the Flood Insurance Study and shown on Flood Insurance Rate Maps. The County adopts these maps for purposes of compliance with the National Flood Insurance Program, but makes no representations or assurances of their accuracy or reliability. The County does not maintain, track, or provide flood history data for any particular parcel of land.

THERE IS NO GUARANTY OF VESTED USE, EXISTING USE, OR FUTURE USE CREATED BY YOUR COMPLIANCE WITH THE FLOODPLAIN ORDINANCE. YOU ARE RESPONSIBLE FOR ASSESSING YOUR OWN PARTICULAR FLOOD RISK AND YOU ARE ENCOURAGED TO SPEAK WITH NEIGHBORING OWNERS AND THE PREVIOUS OWNERS OF YOUR LAND TO OBTAIN FIRST-HAND KNOWLEDGE OF YOUR PROPERTY'S SPECIFIC FLOOD HISTORY.

DISCLAIMER OF LIABILITY. The County floodplain ordinance does not create liability on the part of Board of County Commissioners of Columbia County or any officer or employee thereof for any flood damage that results from reliance on the ordinance, or any administrative decision lawfully made thereunder. Again, it is your responsibility to assess your property's flood risk and build accordingly.

For more information, see the Columbia County Code of Ordinances, Land Development Regulations, Article 8, at: https://library.municode.com/fl/columbia_county. Additional information can also be found on the County Building Department's web page: <https://www.columbiacountyfla.com/BuildingandZoning.asp>.

ACKNOWLEDGEMENT

I have read and understand the foregoing **NOTICE TO APPLICANT/OWNER REGARDING FLOOD ZONES**. I understand it is my responsibility to determine my property's flood risk, and that the County has made me no assurances that my property can not or will not flood.

Florida Statutes Chapter 489.103:

www.columbiacountyfla.com

_____ 1. I understand that state law requires construction to be done by a **licensed contractor** and have applied for an owner-builder permit under an exemption from the law. The exemption specifies that I, as the owner of the property listed, may act as my own contractor with certain restrictions even though I do not have a license.

_____ 2. I understand that building permits are not required to be signed by a property owner unless he or she is responsible for the construction and is not hiring a **licensed contractor** to assume responsibility.

_____ 3. I understand that, as an owner-builder, I am the responsible party of record on a permit. I understand that I may protect myself from **potential financial risk** by hiring a **licensed contractor** and having the permit filed in his or her name instead of my own name. I also understand that a contractor is required by law to be licensed in Florida and to list his or her license numbers on permits and contracts.

_____ 4. I understand that I may build or improve a one-family or two-family residence or a farm outbuilding. I may also build or improve a commercial building if the costs do not exceed \$75,000. The building or residence **must be for my own use or occupancy**. It may not be built or substantially improved for sale or lease, unless I am completing the requirements of a building permit where the contractor listed on the permit substantially completed the project. If a building or residence that I have built or substantially improved myself is sold or leased within 1 year after the construction is complete, the law will presume that I built or substantially improved it for sale or lease, which violates the exemption.

_____ 5. I understand that, as the owner-builder, I must provide **direct, onsite supervision** of the construction.

_____ 6. I understand that I **may not hire an unlicensed person** to act as my contractor or to supervise persons working on my building or residence. It is my responsibility to ensure that the persons whom I employ have the **licenses required by law** and by county or municipal ordinance.

_____ 7. I understand that it is a frequent practice of unlicensed persons to have the property owner obtain an owner-builder permit that erroneously implies that the property owner is providing his or her own labor and materials. I, as an owner-builder, **may be held liable** and subjected to **serious financial risk** for any injuries sustained by an unlicensed person on his or her employees while working on my property. My **homeowner's insurance may not provide coverage** for those injuries. I am willfully acting as an owner-builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

_____ 8. I understand that I may not delegate the responsibility for supervising work to a licensed contractor who is not licensed to perform the work being done. Any person working on my building who is not licensed must work under my direct supervision and must be employed by me, which means that I **must comply with laws requiring the withholding of federal income tax and social security contributions** under the Federal Insurance Contributions Act (FICA) and **must provide workers' compensation** for the employee. I understand that my **failure to follow these laws may subject me to serious financial risk**.

_____ 9. I agree that, as the party legally and financially responsible for this proceed construction activity, I will abide by all applicable laws and requirements that govern owner-builders as well as employees. I also understand that the construction **must comply with all applicable laws, ordinances, building codes, and zoning regulations**.

_____ 10. I understand that I may obtain more information regarding my obligations as an employer from the Internal Revenue Service, the United States Small Business Administration, the Florida Department of Financial Services, and the Florida Department of Revenue. I also understand that I may **contact the Florida Construction Industry Licensing Board** at 850-487-1395 or <http://www.myfloridalicense.com/> for more information about licensed contractors.

_____ 11. I am aware of, and consent to, an owner-builder building permit applied for in my name and understand that **I am the party legally and financially responsible** for the proposed construction activity at the following address:

(Address of jobsite property)

_____ 12. I agree to **notify Columbia County Building Department** immediately of any additions, deletions, or changes to any of the information that I have provided on this disclosure. **Licensed contractors are regulated** by laws designed to protect the public. If you contract with a person who does not have a license, the Construction Industry Licensing Board and Department of Business and Professional Regulation may be **unable to assist you with any financial loss** that you sustain as a result of complaint. Your only remedy against an unlicensed contractor may be in civil court. It is also important for you to understand that, if an unlicensed contractor or employee of an individual or firm is injured while working on your property, you may be held **liable for damages**. If you obtain an owner-builder permit and wish to hire a licensed contractor, you will be responsible for **verifying whether the contractor is properly licensed** and the status of the contractor's workers' compensation coverage.

Florida Statutes Chapter 489.103:

_____ 13. State law requires electrical contracting to be done by **licensed electrical contractors**. You have applied for a permit under an exemption to that law. The exemption allows you, as the owner of your property, to act as your own electrical contractor even though you do not have a license. You may install electrical wiring for a farm outbuilding or a single-family or duplex residence. You may install electrical wiring in a commercial building the aggregate construction costs of which are under \$75,000. The home or building must be for your own use and occupancy. It **may not be built for sale or lease**, unless you are completing the requirements of a building permit where the contractor listed on the permit substantially completed the project. If you sell or lease more than one building you have wired yourself within 1 year after the construction is complete, the law will presume that you built it for sale or lease, which is a violation of this exemption. You **may not hire an unlicensed person** as your electrical contractor. Your construction shall be done according to **building codes and zoning regulations**. It is your responsibility to make sure that people employes by you have **licenses required by state law** and by county or municipal licensing ordinances.

_____ 14. An owner of property completing the requirements of a building permit, where the contractor listed on the permit **substantially completed the project** as determined by the local permitting agency, for a one-family or two-family residence, townhome, accessory structure of a one-family or two-family residence or townhome or individual residential condominium unit or cooperative unit. Prior to the owner qualifying for the exemption, the owner must receive approval from the local permitting agency, and the local permitting agency must determine that the contractor substantially completed the project. An owner who qualifies for the exemption under this paragraph is **not required to occupy** the dwelling or unit for at least 1 year after the completion of the project.

Before a building permit shall be issued, this notarized disclosure statement must be completed and signed by the property owner and returned to the local permitting agency responsible for issuing the permit.
