

Addendum 1
2015-5A
Lake Harris Drainage Well

Drill cuttings accumulated during mud rotary drilling will be collected and removed by Columbia County. County will provide a 20CY "Rolloff" container and shall construct pit to separate solids from water for use during reverse air drilling. County will also provide trucks and loaders to remove solid material from pit and/or "rolloff".

Questions and Answers

1. What is the budget for this project?

\$200,000 (includes well, engineering, permitting and conveyance system)

2. Will the County be providing 20 yard roll off, trucks and loaders to remove solid material from pit and or role off, and complete final grade at site?

See above.

3. What is the anticipated NTP Date?

Minimum of 30 Days after bid due date

4. Can the Contractor visit the project site?

Yes

5. Will the Contractor be allowed Progress payments?

Yes
