

Addendum 9
RFP No. 2016-L
Questions and Answers
8/4/2016

Following is a list of questions and answers we have received in reference to RFP No. 2016-L. Questions are copied as asked.

- Questions:
 - Beginning on page 217 (of 262) of the Request for Proposal, the County has provided Workers' Compensation loss information from PGIT. In our review of the loss information from the 10/1/2012-10/1/2013 policy year, there are Workers' Compensation claims missing as the sum of the individual claims data for this policy year does not equal the 10/1/2012-10/1/2013 totals page. Specifically, we noted the following claim numbers as missing from the data set: 0226652, 0224074, 0227161, 0224909, 0227522, 0223843 and 0226093. Please provide the loss information for the missing claims, and any additional pages that may be missing for the 10/1/2012-10/1/2013 policy year. If the pages specifically missing are not able to be located, please (at the very least) identify the total incurred for the claims listed above as well as the NCCI class code associated with each claim listed above. **I have attached a new copy of the 2012-2013 Workers comp loss run. The claims in question are on the first sheet.**
 - The County's current 10/1/2015-10/1/2016 automobile policy (after endorsement activity) identifies 267 vehicles with an Actual Cash Value of \$7,420,102. Addendum #7 identifies 232 vehicles with an Actual Cash Value of \$7,016,017. Please provide vehicle information consistent with the Addendum #7 data, as well as which vehicles were insured for Auto Physical Damage, for the 35 vehicles removed from the automobile schedule. An explanation of the 35 vehicles removed from the schedule may also be helpful to better provide the County with its auto risk financing needs. **During the course of the current fiscal year, the County audited the list of insured vehicles and identified those vehicles that were insured but no longer in the County fleet. We notified our carrier and removed them from coverage. Addendum #7 reflects the list of vehicles insured under this policy after removing those vehicles no longer in the County fleet. As the County continues to operate, vehicles are removed and added as they are added to or removed from the fleet. Addendum #7 is the best list available at the time the RFP was issued. Current fleet may vary.**
 - Addendum #1, along with the clarification regarding values provided in Addendum #8, identifies \$6,258,500 of building and contents values for what appears to be 36 new

locations. Please clarify the following: (a) that the County is requesting proposers to add the \$6,258,500 in values to the existing \$51,552,080 in values currently on the 10/1/2015-10/1/2016 property schedule when responding to the County's RFP; and, (b) that the values identified in the "Building Replacement Value" and "Contents Replacement Value" columns in Addendum #1 do not represent full replacement cost but instead have already been adjusted down to the insurable values specified by the County. *The supplemental list of buildings were identified as not under the current policy during the course of this fiscal year. The values for these sites (included in addendum #1 and #8) are County estimates for the replacement costs for these facilities and may or may not reflect the actual replacement value. They are our staff's best guess based on County construction costs of like and similar structures.*

Page 7 Narrative/Self-analysis

15. Can your firm provide a claims audit of our workers' compensation files?

Question: Do you mean payroll audit or experience modification audit? Workers compensation claim files are held by the insurance company and are audited by Florida Dept. of Insurance.

16. Can your firm provide loss frequency and severity forecasts?

17. How frequently will your firm provide loss development and trending analysis?

In answering 15, 16 and 17, we are looking to see how a firm can assist the County with analyzing and addressing our loss experiences. This includes minimizing workers compensation claim reserves, insuring employees have correct workers compensation codes, etc. as well as identifying trends and issues in all coverage areas that can be used to reduce future loss experience .

The supplemental. There were no values for Annie Mattox storage and PITO Playground lights, scoreboard and 3 pavilions.

A 12x12 picnic pavilion is approximately \$5,000 and I think there are 2 or 3, \$700 per picnic table. The playground can be expensive – maybe \$45,000, and then there is fencing for a few thousand and a restroom for \$30 to \$50,000.
