

ADDENDA #1
PROJECT NO. 2022-03
PICCADILLY PARK NORTH SUBDIVISION ROADWAY PAVING PROJECT

- Transition aprons will be constructed and will be paid for under asphalt tonnage (Surface)
- Per bid documents, sodding will be by FDOT specification 570
981-3.1 Types: Unless a particular type of sod is called for in the Contract Documents, sod may be either centipede, bahia, or bermuda at the Contractor's option. It shall be well matted with roots. Where sodding will adjoin, or be in sufficiently close proximity to, private lawns, other types of sod may be used if desired by the affected property owners and approved by the Engineer.
- Per note in bid documents, sod will be placed at engineer's direction.

END OF ADDENDUM NO. 1
(Acknowledge receipt of Addenda on Bid Form)
