The results of the torque probe test is 250 inch pounds or check here if you are declaring 5' anchors without testing. A test showing 275 inch pounds or less will require 5 foot anchors.

Note: A state approved lateral arm system is being used and 4 ft. anchors are allowed at the sidewall locations. I understand 5 ft anchors are required at all centerline tie points where the torque test reading is 275 or less and where the mobile home manufacturer may requires anchors with 4000 bolding capacity.

Installer's initials

ALL TESTS MUST BE PERFORMED BY A LICENSED INSTALLER

Installer Name

DAVID AIBRIGHT MOBILE HOME

Date Tested

Electrical

Connect electrical conductors between multi-wide units, but not to the main power source. This includes the bonding wire between multi-wide units. Pg. 64-68

Plumbing

Connect all sewer drains to an existing sewer tap or septic tank. Pg. /u

Connect all potable water supply piping to an existing water meter, water tap, or other independent water supply systems. Pg. 107

Fastening multi wide units

Water drainage: Natural

Debris and organic material removed

×

Type Fastener: LAG Length: 6" Spacing: 2"
Type Fastener: XXELU Length: 4" Spacing: 18"
Type Fastener: LAG Length: 6" Spacing: 2"
For used homes a min. 30 gauge, 8" wide, galvanized metal strip will be centered over the peak of the roof and fastened with galv.

Floor: Walls:

Roof:

Gasket (weatherproofing requirement)

roofing nails at 2" on center on both sides of the centerline

I understand a properly installed gasket is a requirement of all new and used homes and that condensation, mold, meldew and buckled marriage walls are a result of a poorly installed or no gasket being installed. Lunderstand a strip of tape will not serve as a gasket.

Installer's initials

Type gasket Pg. 36

Installed:

Between Floors Yes X

Between Walls Yes END 4

Bottom of ridgebeam Yes X

Weatherproofing

The bottomboard will be repaired and/or taped. Yes X . Pg. 1/9 Siding on units is installed to manufacturer's specifications. Yes Fireplace chimney installed so as not to allow intrusion of rain water. Yes

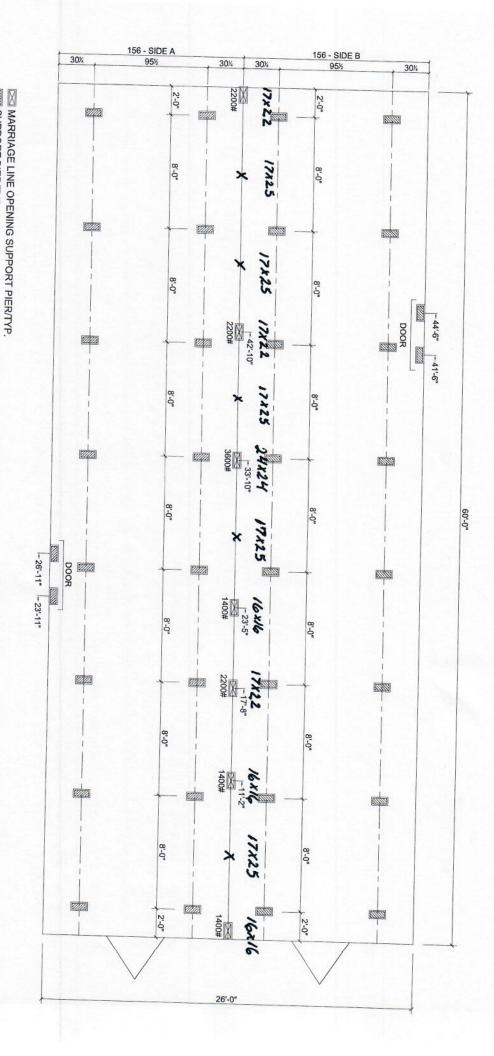

Miscellaneous

Skirting to be installed. Yes No X
Dryer vent installed outside of skirting. Yes N/A X
Range downflow vent installed outside of skirting. Yes N/A X
Drain lines supported at 4 foot intervals. Yes X
Electrical crossovers protected. Yes X
