\$125.00 new service fee - pd.

Served by the Lake City District

I/We certify that the electric service provided by Clay Electric is for the following purpose: GENERAL SERVICE

The applicants hereby apply for membership in Clay Electric Cooperative, Inc., and agree to comply with and be bound by the provisions of the charter and bylaws of said Cooperative and such rules and regulations as may be adopted by the Cooperative.

Memberships and deposits are not transferable by the member/applicants and constitute security for the amounts due the cooperative. The Cooperative may transfer membership fees and deposits to other accounts maintained by member/applicant in accordance with the Cooperative's policies. The new service fee is non-refundable and due at the time of application. It is only effective for 12 months from the time of application.

The applicants understand that the Cooperative has the right to place and access metering devices to record energy use and properly maintain electric service.

The applicants agree that failure to negotiate a check made payable to the applicants for a capital credit retirement or for any other payment due from Clay Electric Cooperative and if such failure continues for a period of three years then in accordance with the Cooperatives bylaws, rules and regulations, the applicants shall have agreed to release and assign such check or payment to the Cooperative or its designee.

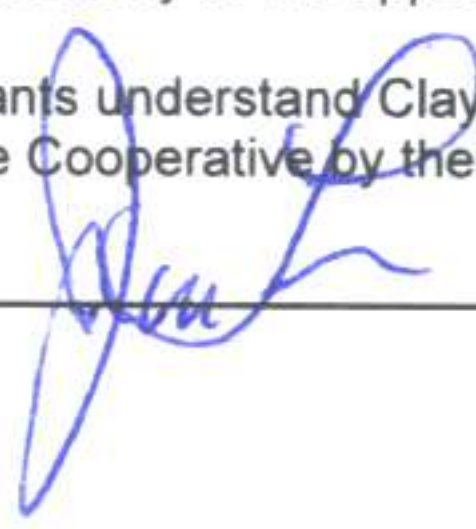

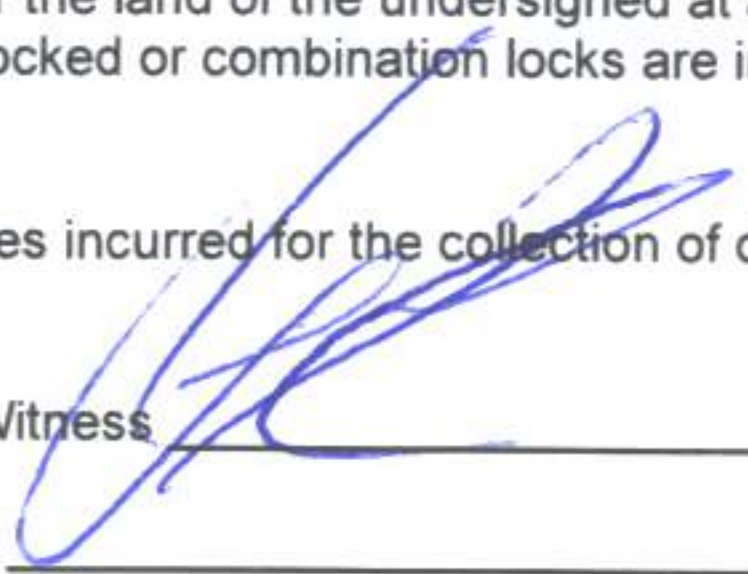

The applicant(s), in consideration of one dollar and other valuable considerations to them in hand paid, receipt whereof is acknowledged, do hereby grant and convey unto Clay Electric Cooperative, Inc., whose post office address is Keystone Heights, Florida, and its successors and assigns, a perpetual easement across and the right to enter upon the land of the undersigned, situated in County of , State of Florida, and more particularly described as follows:

SEDFIELD S/D LOT 7: A parcel of land lying, being and situate in Section 3, Township 6 south, Range 16, Columbia County, Florida.

TPN# 03-6S-16-03767-307

and to place, replace, construct, operate, repair and maintain an electric distribution line, and to cut trees and shrubbery within **10 feet** on each side of said distribution line and to enter the land of the undersigned at any reasonable time for the purpose of reading electric meters. If gates are locked or combination locks are installed, it is the responsibility of the applicant(s) to allow the Cooperative access.

The applicants understand Clay Electric has the right of offset for expenses incurred for the collection of delinquent debts to the Cooperative by the member.

County: Columbia

METER CAN LOCATION WILL BE DETERMINED BY THE ENGINEER.

UNDERGROUND SERVICE: All conduit must be installed and covered to Clay Electric's specifications prior to the release of the job to construction. The **engineer** assigned to the job **will advise** the member or contractor on the conduit size required. The minimum size conduit that can be used is **2 ½ inch**, in some situations, larger conduit may be required. Determining the conduit size is dependent on distance, size of service and direction. The preferred burial depth is **30-42 inches deep** to the top of the conduit with a pull string installed. **Conduit must be covered completely.** Conduit must be stubbed up flush to Clay Electric's pole or ran to the location a CEC pole will be installed. In underground subdivisions, conduit should be run to and connected at designated stub. Ask the engineer before installing.

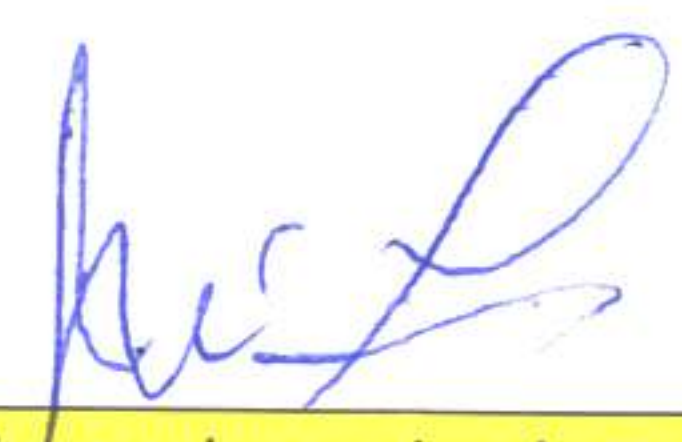

**OVERHEAD SERVICE FOR TEMP CONSTRUCTION POLE OR
OVERHEAD BY ENGINEER'S DISCRETION:**

Either a **20 foot or 25 foot meter pole** is required. **This is determined by the engineer.** A **GUY & ANCHOR** may be required on the meter pole or temporary pole. **This is determined by the engineer.** The guy & anchor must be installed prior to the release of the job to construction.

If the above requirements are not complete when the construction crew or serviceman goes to the job site to connect, **a service charge up to \$150 may be charged. It is the responsibility of the member or contractor to make sure the above requirements have been completed. **This should be done prior to the county making final inspection.****
