| TORQUE PROBE TEST | |
| <p>The results of the torque probe test is <u>285</u> inch pounds or check here if you are declaring 5' anchors without testing <u>285</u>. A test showing 275 inch pounds or less will require 5 foot anchors</p> | |
| <p>Note: A state approved lateral arm system is being used and 4 ft. anchors are allowed at the sidewall locations. I understand 5 ft anchors are required at all centerline tie points where the torque test reading is 275 or less and where the mobile home manufacturer may requires anchors with 4000 lb holding capacity</p> | |
