RE: Roof Structure Repair  
246 NW Secluded Glen  
Lake City, FL 32055  
Permit # 000052415

## ENGINEERING REVIEW & CERTIFICATION

During the reroofing of the Alvin Residence located at 246 NW Secluded Glen, Lake City, FL 32055, in accordance with the Columbia County Permit #000052415, the contractor DEHLINGER LLC identified damage to the soffit overhang area at the corner of the residence, where a tree had impacted the roof. The contractor proceeded to accomplish a structural repair of the damage. Based on a review of the contractor's company cam photographic gallery, it was established that the repair had been done in a workmanship like manner in essential compliance with the requirements of the FLORIDA BUILDING CODE 8<sup>TH</sup> EDITION, good construction and good engineering practice. Based on this review of the evidence presented, the engineer certifies the repair as meeting the requirements of the FLORIDA BUILDING CODE 8<sup>TH</sup> EDITION and assumes responsibility for the structural repair to the damaged soffit area of the subject residence.
