Application 65771 will not need to change, the utility address was issued using the driveway on the building application. 312 SW Montana will be the address unless the house is placed in the same spot since it is two lots that can be divided and sold in the future. That would cause a numbering conflict with addressing and emergency response.

Good morning,

Can you review app 65771 and see if the address needs to change based on the site plan provided? We issued him a utility only address initially. Also, the one we spoke about on Montana, 308/312 is calling about keeping 308. I explained to her that wasn't an option based on the location of the home. So she will be reaching out to you also. Thanks!
