Question from John Cappadonna (Ajax Building Company, LLC) at 10:29 AM on 01/06/2021

There is no detail for the footing where the pre-cast cells but up to the corridor CMU leading from the rover station. E3/A-581 shows 1" between the cell and the CMU. We propose to extend the Footing out as shown on attached sketch SK-RFI-CC-48.
