Mayo, Florida 32066

Subject: Requested Environmental Resource Permit (ERP) Exemption for
ERP04-0523M, Mayo Fertilizer - Lake City, Columbia County

Dear Mr. Shaw:

The above mentioned proposed project of constructing a building addition does not require a new ERP or a modification to the existing permit, ERP04-0523, by the Suwannee River Water Management District (District). This decision was based on the existing permit, and information submitted by Wayne Bryant of Bryant Construction Company on May 24, 2012. It has been determined that the proposed project follows subsection 40B-4.1070(1)(c) Florida Administrative Code (F.A.C.), and provides reasonable assurance that:

1. The existing storm water system is functioning as permitted.
2. The master system will not change as a result of the connection.
3. The project will not exceed any thresholds established by the existing permit.

If this project does not comply with these terms, a permit will be required.

This exemption, however, does not exempt you from obtaining permits from any other regulatory agency. Any modification to the exempted plans that may be required shall require reconsideration by the District prior to commencement of construction.

If you have any questions, please contact me by phone at 386.362.0440, or by email at LRM@srwmd.org.

Sincerely,

Leroy Marshall II
