re: ENGINEER'S REPORT: 281 SW MARKS DRIVE, LAKE CITY, FL

Two trusses and the wall were damaged by a fallen tree. The damaged trusses shall be completely replaced. The damaged walls shall be reconstructed using full height 2x4 SYP #2 studs. Wall and roof sheathing shall be replaced in full sheets. Damaged electric and HVAC shall be repaired in the walls and attic. Siding shall match existing siding. All fasteners shall comply with FBC-Residential, 8^{th} Edition.

In my professional opinion, these repairs meet the specifications in the 2023 Florida Building Code - Residential, δ^{th} Edition. Should you have any questions, please don't hesitate to contact me.

Respectfully,
