---

Good afternoon Melissa,

My name is Ashley Arsua and I work at Handi House in Lake City.

Per our phone conversation earlier today, I am reaching out in regards to permit application #61007 for Lake City Christian Academy that we would like to keep the permit open. We are going to be switching everything to James Player as our previous contractor Ulysees Rushing has passed away unexpectedly.

Also, as far as application #61326 for Edward Allen, it is okay for the homeowner to take over the process of his own application for his permit. We, as the dealer, will still stand behind all wind loads and anything he needs during the process.

If you have any questions please let us know.

Thank you,

--
