**Subject: Lot 8, Pines of Falling Creek**

Dear Jay & Teresa:

Daniel & Gore, LLC has performed a vertical survey on Lot 8, Pines of Falling Creek, Columbia County, Florida from a benchmark being a FDOT brass disk (2907007 – BM 6) in the SE corner of the bridge on State Road 47 (elevation – 119.792', NAVD 1988) and have determined the following:

- The Subdivision plat requires the minimum finish floor elevation to be 134.0'.
- We have set a benchmark on site, being a 60d nail in a 9" pine near the NW property corner with an elevation of 134.0', being at the minimum finish floor requirement.
- The finished floor elevation of the residence is at 135.8', being 1.8' above the minimum requirement.

If you have any questions, please call me.

Sincerely,

Scott Daniel, PSM
