NOTICE TO ALL CONTRACTORS

Please be advised that due to the new building codes we will use a large capacity diaphragm tank on all new wells. This will insure a minimum of one (1) minute draw down or one (1) minute refill. If a smaller diaphragm tank is used then we will install a cycle stop valve which will produce the same results.

If you have any questions please feel free to call our office anytime.

Thank you,

Donald D. Hall

Addressing Maintenance

To maintain the Countywide Addressing Policy you must make application for a 9-1-1 Address at the time you apply for a building permit. The established standards for assigning and posting numbers to all principal buildings, dwellings, businesses and industries are contained in Columbia County Ordinance 2001-9. The addressing system is to enable Emergency Service Agencies to locate you in an emergency, and to assist the United States Postal Service and the public in the timely and efficient provision of services to residents and businesses of Columbia County.

WARRANTY DEED

THIS WARRANTY DEED made this 12th day of May, 2005, by EVERETT W. ROGERS, a married person not residing on the property, whose mailing address is 8355 South U. S. Highway 441, Lake City, Florida 32025, hereinafter called the Grantor, to BURL D. HARKEY and LORI A. HARKEY, his wife, whose post office address is 314 SE Mill Creek Court, Lake City, Florida 32025, hereinafter called the Grantee:

WITNESSETH:

That the Grantor, for and in consideration of the sum of TEN AND NO/100 (\$10.00) DOLLARS and other valuable considerations, receipt whereof is hereby acknowledged, hereby grants, bargains, sells, aliens, remises, releases, conveys and confirms unto the Grantee, all that certain land situate in Columbia County, Florida viz:

A part of the West 1/2 of Section 1, Township 3 South, Range 16 East, Columbia County, Florida, more particularly described as follows: Commence at the Northeast corner of the SE 1/4 of the NW 1/4 of said Section 1, and run S 89°00'22" W, along the North line thereof, a distance of 2.14 feet to the Westerly right-of-way line of State Road #131; thence S 10°15'34" W, along said Westerly right-of-way line, a distance of 1114.72 feet to a point of curve of a curve concave to the West, having a radius of 5679.58 feet, and a total central angle of 9°46'00"; thence run Southwesterly along said curve through a central angle of

INFORMATION COPY

00°28'45" for an arc distance of 47.49 feet to the POINT OF BEGINNING; thence continue along said curve through an included angle of 05°48'34", for an arc distance of 575.88 feet; thence S 88°52'17" W, a distance of 936.80 feet; thence N 17°09'35" E, a distance of 586.22 feet; thence N 88°52'17" E, a distance of 899.62 feet to the POINT OF BEGINNING, and identified as Parcel 1 on survey prepared by Britt Surveying dated April 20, 2004, Work Order Number L-14601.

Parcel Number: R01909-005.

This deed is given subject to all easements, reservations, restrictions and limitations of record, if any.

The land described herein is not the homestead of the Grantor, and neither the Grantor nor the Grantor's spouse, nor anyone for whose support the Grantor is responsible, resides on or adjacent to said land.

TOGETHER WITH all the tenements, hereditaments and appurtenances thereto belonging or in anywise appertaining.

TO HAVE AND TO HOLD, the same in fee simple forever.

AND the Grantor hereby covenants with said Grantee that the Grantor is lawfully seized of said land in fee simple; that the Grantor has good right and lawful authority to sell and convey said land; that the Grantor hereby fully warrants the title to said land and will defend the same against the lawful claims of all persons whomsoever; and that said land is free of all encumbrances, except taxes accruing subsequent to December 31, 2004.

Dear Mr. Morino:

We wish to acknowledge receipt of your specifications and test results certifying that your Longitudinal Stabilizing and Lateral Bracing System, MMA-LLBS, listed below complies with the specifications and regulations set by the Department of Highway Safety and Motor Vehicles, Rules 15C-1.0105, 15C-1.0107 and 15C-1.0108, Florida Administrative Code.

Installation instructions must be available at the installation site.

<u>MODEL #</u>	<u>IDENTIFICATION</u>	<u>DESCRIPTION</u>
MMA-SD3	Base Pad	2.75 sq. ft. 11 ga. Galv. Steel Pad Beam Clips
MMA-LLBS	Kit	Lateral Hardware and Longitudinal Struts

NOTE: This system is for replacement of longitudinal and lateral anchors. This system can only be used with sidewall anchor spacing of 5'4". Maximum strut angle 45°.

If you have any questions, please advise at (407) 623-1340.

Sincerely,

Phil Bergelt, Program Manager
Bureau of Mobile Home and

Minute Man anchors, Inc.

Installation Instructions for Model LLBS Longitudinal and
Lateral Bracing System Approved for Florida

Revised: 10/27/04

Note: Your set must be designed by a Registered Professional Engineer if all or one of the following conditions occur:

Location is within 1,500 feet of Coast
Pier Height exceeds 48"
Sidewall height exceeds 96"

Roof eaves exceeds 16"
Main beam spacing exceeds 99.5"

- 1 Refer to the Home Manufacturer Installation Instructions for pier locations. 6" Disc anchors 48" long with vertical ties are required at maximum 5'-4" center along both sidewalls starting a maximum of 2'-0" in from each end of the home. Vertical ties must be used at all connection points furnished by the home manufacturer. Centerline anchors to be sized according to soil torque condition. Any manufacturer's specifications for sidewall anchor loads in excess of 4,000 lbs require a 5' anchor.
- 2 Refer to the Systems Placement Plans for the location of Longitudinal Lateral Bracing System.. (See Attached). Each system is required to have a frame tie and stabilizer attached at each lateral arm stabilizing location.
- 3 Remove turf to expose firm soil at each SD3 pad location.
- 4 Attach tube clip to SD3 pier pads (see Detail Assembly Drawing) center pad under beam, level pad. Angle Drive Pins may be driven vertically through four (4) slots in SD3 pier pad now or after home is totally set. Angle drive pins may be driven up to ten degrees (10) off of vertical. If you choose to drive pins after home is set, do not cover slots in pier pad. 16" Drive pins must be used in Florida.
- 5 Level home on concrete blocks or deluxe steel pier by Minute Man.
- 6 Install Longitudinal and Lateral Bracing in accordance with Systems Placement Plan and Detail Assembly Drawing.
- 7 Install vertical anchors, frame ties and stabilizers at each lateral arm system location..

Thank you for using Minute Man Products, Inc. If you have any questions, please call Toll Free
at (800) 438-7277.

MADE IN THE USA

7

PERMIT NUMBER

POCKET PENETROMETER TEST

The pocket penetrometer tests are rounded down to or check here to declare 1000 lb. soil without testing.

x 1800 x 1800 x 1900

POCKET PENETROMETER TESTING METHOD

1. Test the perimeter of the home at 6 locations.
2. Take the reading at the depth of the footer.
3. Using 500 lb. increments, take the lowest reading and round down to that increment.

1500 lbs

TORQUE PROBE TEST

The results of the torque probe test is inch pounds or check here if you are declaring 5' anchors without testing. A test showing 275 inch pounds or less will require 4 foot anchors.

Note: A state approved lateral arm system is being used and 4 ft. anchors are allowed at the sidewall locations. I understand 6 ft anchors are required at all centerline locations where the torque test reading is 275 or less and where the mobile home manufacturer may require anchors with 4000 lb. holding capacity.

Use this example to draw your own site plan. Show all existing buildings and any other homes on this property and show the distances between them. Also show where the roads or roads are around the property. This site plan can also be used for the 911 Addressing department if you include the distance from the driveway to the nearest property line.
