Good Morning

Troy Crews had questioned the architect on accessibility for the second floor. I'll send you the architects letter for your files. Here is Troy's response. Please have Jimmy sign the email as he requests. Thanks

David

Mr. Simque, I have received the letter from the Architect regarding vertical accessibility. I am in agreement that there is somewhat of an exception here. On that note I will require a permanent sign at the base of the stairs that states private. Also the owner needs to be aware that if they were to have a handicap employee they will need to provide an accessible work area for them. Also if any change to the use of the building where the public would use the upstairs, a chair lift or other suitable means would need to be installed. Please have the owner sign this e-mail and attachment for proof of notification thanks.

  
James F. Boone, President
