re: ROOF FRAMING LETTER

Revisions & additions to the plans dated February 4, 2022:

- Install ridge strap @ every rafter
- Collar ties shall be install @ 48" maximum spacing
- Fasten block connecting rafter and ceiling joist to top plate with 16-16d common nails, both sides (40d box nails can be substituted for 16d common nails)

In my professional opinion, this structure meets the requirements for a residential dwelling per the Florida Building Code 2020, 7<sup>th</sup> Edition, Residential. Should you have any questions, please don't hesitate to contact me.

Respectfully,

Carol Chadwick, P.E.
