NOTICE: Applicant to be responsible for all work and installation to comply with all applicable codes and standards, including but not limited to the Florida Building Code, Florida Fire Prevention Code, and any other applicable public, private, or governmental laws, rules and regulations, including but not limited to all requirements of the Occupational Safety and Health Administration (OSHA) and any other agencies or departments having jurisdiction over the work or the site. Applicant to be responsible for all means, methods, techniques, sequences and procedures and for safety precautions and programs in connection with the work, and for any damage resulting from applicant's failure to perform its work in accordance with the foregoing. Applicant to be responsible for the acts and omissions of all its employees and all subcontractors, their agents and employees, and all other persons performing any of the work under a contract with applicant or any of its subcontractors. Applicant to be responsible for all damage to property and injury to persons that may occur as a result of its fault or negligence, or that of its subcontractors, their agents and employees, in connection with the performance of the work, except damage or injury attributable to the sole fault of the City. Applicant to be responsible for protection of adjacent property as required by local regulations. Applicant to be responsible for providing adequate safety devices and precautions in, on or about the performance of the work, including adequate barricades, shoring, temporary lighting, flagmen, signs and other devices necessary to provide adequate protection to prevent accidents or injuries to any persons on, about or adjacent to the premises on which the work is being performed, and to provide adequate protection to prevent damage, injury or loss to adjoining property, the work and the City's property. Applicant to be responsible for maintaining adequate storage and protection of materials and for keeping the premises free from debris during the work and after completion. Applicant to be responsible for the proper care and protection of the work already performed, including protection from the elements. Applicant to be responsible for the repair, restoration and replacement of any property damaged or destroyed by any cause whatsoever during the prosecution of the work or after completion of the work and for leaving the premises in clean condition upon completion of the work. Applicant to be responsible for providing adequate facilities for the protection of workers from the elements. Applicant to be responsible for observing and complying with all laws, ordinances, regulations, orders and decrees of bodies or tribunals having any jurisdiction or authority over the work. Applicant to be responsible for giving all notices and obtaining all permits, licenses and certificates necessary for the proper execution and completion of the work. Applicant to be responsible for the preparation and maintenance of all documentation required by any governmental agency having jurisdiction over the work or the site. Applicant to be responsible for the safety of persons and property during the performance of the work. Applicant to be responsible for the proper training and conduct of persons performing the work. Applicant to be responsible for the prevention of accidents. Applicant to be responsible for all damage caused by applicant, its subcontractors, their agents and employees, and all other persons performing any of the work under a contract with applicant or any of its subcontractors. Applicant to be responsible for maintaining adequate storage and protection of materials and for keeping the premises free from debris during the work and after completion. Applicant to be responsible for the proper care and protection of the work already performed, including protection from the elements. Applicant to be responsible for the repair, restoration and replacement of any property damaged or destroyed by any cause whatsoever during the prosecution of the work or after completion of the work and for leaving the premises in clean condition upon completion of the work. Applicant to be responsible for providing adequate facilities for the protection of workers from the elements. Applicant to be responsible for observing and complying with all laws, ordinances, regulations, orders and decrees of bodies or tribunals having any jurisdiction or authority over the work. Applicant to be responsible for giving all notices and obtaining all permits, licenses and certificates necessary for the proper execution and completion of the work. Applicant to be responsible for the preparation and maintenance of all documentation required by any governmental agency having jurisdiction over the work or the site. Applicant to be responsible for the safety of persons and property during the performance of the work. Applicant to be responsible for the proper training and conduct of persons performing the work. Applicant to be responsible for the prevention of accidents.
