Troy

This suffices for the final driveway inspection. I will update on the portal.

Thanks

Chad

Troy,

The requested updated information requested below has been updated and attached for the septic tank placement and trip generation letter for the site. Septic tank is not installed currently onsite as of today.

Could the county send the meter inspection to Kent with FPL this morning so we can get on their schedule to set the meter for the building tomorrow prior to our electricians taking a trip home over the weekend?

Thank you

Nick, can get us a trip generation study and also there is a tank on right-of-way shown on plans that needs to be relocated thanks.

Troy Crews
