Address Assignment and Maintenance Document

To maintain the county wide Addressing Policy you must make application for a 9-1-1 Address at the time you apply for a building permit. The established standards for addressing and posting numbers to all principal buildings, dwellings, businesses and industries are contained in Columbia County Ordinance 2001-9. The addressing system is to enable Emergency Services Agencies to locate you in an emergency, and to assist the United States Postal Service and the public in the timely and efficient provision of services to residents and businesses of Columbia County

Date/Time Issued: **6/22/2020 2:45:40 PM**

Address: **237 SW REDMOND GLN**

City: **LAKE CITY**

State: **FL**

Zip Code **32024**

Parcel ID **33-4S-16-03265-215**

REMARKS: **This is a verified Current address for Building General in Columbia County FL**
Verification ID: b8af57d7-a3e9-4240-9728-b686f65081be

Address was reassigned from old address: 1812 ROUTE 9

NOTICE: THIS ADDRESS WAS ISSUED BASED ON LOCATION AND ACCESS INFORMATION RECEIVED FROM THE REQUESTER. SHOULD, AT A LATER DATE, THE LOCATION AND/OR ACCESS INFORMATION BE FOUND TO BE IN ERROR OR CHANGED, THIS ADDRESS IS SUBJECT TO CHANGE.

Issuance of a 9-1-1 address for your property should not be construed by you or anyone else to mean that your property is buildable pursuant to the Columbia County Land Development Regulations. To determine whether your property is eligible for a building permit please contact the Building and Zoning Department.

Address Issued By: **GIS Specialist**

Columbia County GIS/911 Addressing Coordinator

MOBILE HOME INSTALLATION SUBCONTRACTOR VERIFICATION FORM

APPLICATION NUMBER _____ CONTRACTOR Rusty Knowles PHONE 386-377-0886

THIS FORM MUST BE SUBMITTED PRIOR TO THE ISSUANCE OF A PERMIT

In Columbia County one permit will cover all trades doing work at the permitted site. It is REQUIRED that we have records of the subcontractors who actually did the trade specific work under the permit. Per Florida Statute 440 and Ordinance 89-6, a contractor shall require all subcontractors to provide evidence of workers' compensation or exemption, general liability insurance and a valid Certificate of Competency license in Columbia County.

Any changes, the permitted contractor is responsible for the corrected form being submitted to this office prior to the start of that subcontractor beginning any work. Violations will result in stop work orders and/or fines.

F. S. 440.103 Building permits; identification of minimum premium policy.--Every employer shall, as a condition to applying for and receiving a building permit, show proof and certify to the permit issuer that it has secured compensation for its employees under this chapter as provided in ss. 440.10 and 440.38, and shall be presented each time the employer applies for a building permit.

Office: 386-758-1008 Fax: 386-758-2160

OWNER BUILDER DISCLOSURE STATEMENT

Florida Statutes Chapter 489.103:

1. I understand that state law requires construction to be done by a licensed contractor and have applied for an owner-builder permit under an exemption from the law. The exemption specifies that I, as the owner of the property listed, may act as my own contractor with certain restrictions even though I do not have a license.
2. I understand that building permits are not required to be signed by a property owner unless he or she is responsible for the construction and is not hiring a licensed contractor to assume responsibility.
3. I understand that, as an owner-builder, I am the responsible party of record on a permit. I understand that I may protect myself from potential financial risk by hiring a licensed contractor and having the permit filed in his or her name instead of my own name. I also understand that a contractor is required by law to be licensed in Florida and to list his or her license numbers on permits and contracts.
4. I understand that I may build or improve a one-family or two-family residence or a farm outbuilding. I may also build or improve a commercial building if the costs do not exceed \$75,000. The building or residence must be for my own use or occupancy. It may not be built or substantially improved for sale or lease, unless I am completing the requirements of a building permit where the contractor listed on the permit substantially completed the project. If a building or residence that I have built or substantially improved myself is sold or leased within 1 year after the construction is complete, the law will presume that I built or substantially improved it for sale or lease, which violates the exemption.
5. I understand that, as the owner-builder, I must provide direct, onsite supervision of the construction.
6. I understand that I may not hire an unlicensed person to act as my contractor or to supervise persons working on my building or residence. It is my responsibility to ensure that the persons whom I employ have the licenses required by law and by county or municipal ordinance.

7. I understand that it is a frequent practice of unlicensed persons to have the property owner obtain an owner-builder permit that erroneously implies that the property owner is providing his or her own labor and materials. I, as an owner-builder, may be held liable and subjected to serious financial risk for any injuries sustained by an unlicensed person or his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an owner-builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

8. I understand that I may not delegate the responsibility for supervising work to a licensed contractor who is not licensed to perform the work being done. Any person working on my building who is not licensed must work under my direct supervision and must be employed by me, which means that I must comply with laws requiring the withholding of federal income tax and social security contributions under the Federal Insurance Contributions Act (FICA) and must provide workers' compensation for the employee. I understand that my failure to follow these laws may subject me to serious financial risk.

9. I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern owner-builders as well as employers. I also understand that the construction must comply with all applicable laws, ordinances, building codes, and zoning regulations.

10. I understand that I may obtain more information regarding my obligations as an employer from the Internal Revenue Service, the United States Small Business Administration, the Florida Department of Financial Services, and the Florida Department of Revenue. I also understand that I may contact the Florida Construction Industry Licensing Board at **850-487-1395** or <http://www.myfloridalicense.com/> for more information about licensed contractors.

11. I am aware of, and consent to, an owner-builder building permit applied for in my name and understand that I am the party legally and financially responsible for the proposed construction activity at the following address:

237 SW Redmond Gl Lake City FL

(Write in the address of jobsite property)

12. I agree to notify Columbia County Building Department immediately of any additions, deletions, or changes to any of the information that I have provided on this disclosure. Licensed contractors are regulated by laws designed to protect the public. If you contract with a person who does not have a license, the Construction Industry Licensing Board and Department of Business and Professional Regulation may be unable to assist you with any financial loss that you sustain as a result of a complaint. Your only remedy against an unlicensed contractor may be in civil court. It is also important for you to understand that, if an unlicensed contractor or employee of an individual or firm is injured while working on your property, you may be held liable for damages. If you obtain an owner-builder permit and wish to hire a licensed contractor, you will be responsible for verifying whether the contractor is properly licensed and the status of the contractor's workers' compensation coverage.

Florida Statutes Chapter 489.503:

State law requires electrical contracting to be done by licensed electrical contractors. You have applied for a permit under an exemption to that law. The exemption allows you, as the owner of your property, to act as your own electrical contractor even though you do not have a license. You may install electrical wiring for a farm outbuilding or a single-family or duplex residence. You may install electrical wiring in a commercial building the aggregate construction costs of which are under \$75,000. The home or building must be for your own use and occupancy. It may not be built for sale or lease, unless you are completing the requirements of a building permit where the contractor listed on the permit substantially completed the project. If you sell or lease more than one building you have wired yourself within 1 year after the construction is complete, the law will presume that you built it for sale or lease, which is a violation of this exemption. You may not hire an unlicensed person as your electrical contractor. Your construction shall be done according to building codes and zoning regulations. It is your responsibility to make sure that people employed by you have licenses required by state law and by county or municipal licensing ordinances.

An owner of property completing the requirements of a building permit, where the contractor listed on the permit substantially completed the project as determined by the local permitting agency, for a one-family or two family residence, townhome, accessory structure of a one-family or two-family residence or townhome or individual residential condominium unit or cooperative unit. Prior to the owner qualifying for the exemption, the owner must receive approval from the local permitting agency, and the local permitting agency must determine that the contractor substantially completed the project. An owner who qualifies for the exemption under this paragraph is not required to occupy the dwelling or unit for at least 1 year after the completion of the project.

Before a building permit shall be issued, this notarized disclosure statement must be completed and signed by the property owner and returned to the local permitting agency responsible for issuing the permit.

POCKET PENETROMETER TEST

The pocket penetrometer tests are rounded down to 1500 psf or check here to declare 1000 lb. soil _____ without testing.

X 5 X _____ X _____

POCKET PENETROMETER TESTING METHOD

1. Test the perimeter of the home at 6 locations.
2. Take the reading at the depth of the footer.
3. Using 500 lb. increments, take the lowest reading and round down to that increment.

X _____ X _____ X _____

TORQUE PROBE TEST

The results of the torque probe test is 300 inch pounds or check here if you are declaring 5' anchors without testing. A test showing 275 inch pounds or less will require 5 foot anchors.

Note: A state approved lateral arm system is being used and 4 ft. anchors are allowed at the sidewall locations. I understand 5 ft anchors are required at all centerline tie points where the torque test reading is 275 or less and where the mobile home manufacturer may requires anchors with 4000 lb holding capacity.

Installer's initials

ALL TESTS MUST BE PERFORMED BY A LICENSED INSTALLER

Installer Name _____

Date Tested 5-22-24

Electrical

Connect electrical conductors between multi-wide units, but not to the main power source. This includes the bonding wire between multi-wide units. Pg. 15C1

Plumbing

Connect all sewer drains to an existing sewer tap or septic tank. Pg. 15C1

Connect all potable water supply piping to an existing water meter, water tap, or other independent water supply systems. Pg. 15C1

Site Preparation

Debris and organic material removed _____
Water drainage: Natural _____ Swale _____ Pad _____ Other _____

Fastening multi wide units

Floor: _____ Type Fastener: Woods Length: 6" Spacing: 10"
Walls: _____ Type Fastener: Woods Length: 4" Spacing: 24"
Roof: _____ Type Fastener: Straps Length: 14" Spacing: 18"
For used homes a min. 30 gauge, 8" wide, galvanized metal strip will be centered over the peak of the roof and fastened with galv. roofing nails at 2" on center on both sides of the centerline.

Gasket (weatherproofing requirement)

I understand a properly installed gasket is a requirement of all new and used homes and that condensation, mold, mildew and buckled marriage walls are a result of a poorly installed or no gasket being installed. I understand a strip of tape will not serve as a gasket.

Installer's initials RLK

The maps in this box define the design loads for each geographical area. This manufactured home has been designed for the roof and wind load zones:

- ☐ North 40 PSF ☒ South 20 PSF
☐ Middle 30 PSF ☐ Other PSF

This home ☐ requires ☒ does not require perimeter floor support.

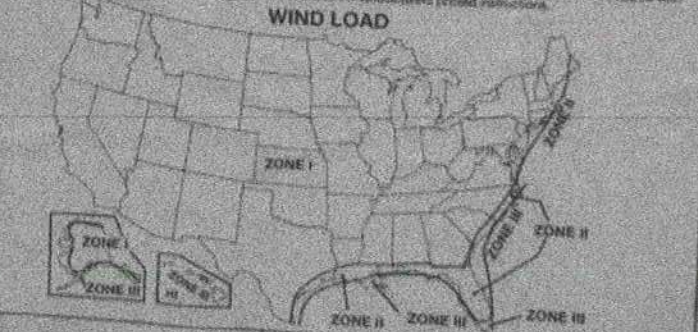

HOME CONSTRUCTED FOR

- ☐ Zone I ☒ Zone II ☐ Zone III

This home has not been designed for the higher wind pressure and anchoring provisions required for coastal areas and should not be located within 1500' of the coastline in Wind Zones I and II, unless the home and its anchoring and foundation system have been designed for the increased requirements specified for Appendix D in ASCE 7-02.

This home has ☐ has not ☒ been designed with storm shutters or other protective coverings for windows and exterior door openings. For homes designed to be located in Wind Zones II and III, which have not been provided with shutters or equivalent covering devices, it is strongly recommended that the home be made ready to be subjected with these devices in accordance with the method demonstrated in manufacturer's printed instructions.

HEATING/COOLING CERTIFICATE

HOME MANUFACTURER: SKYLINE

LOCATION: OCALA, FL

MODEL: 7201-CT

U/D VALUE ZONE MAP

EXPOSURES AND SHADINGS ARE PROVIDED IN CHAPTER 22 OF THE 1989 EDITION OF THE ASHRAE HANDBOOK OF FUNDAMENTALS. INFORMATION NECESSARY TO CALCULATE COOLING LOADS AT VARIOUS LOCATIONS AND ORIENTATIONS IS PROVIDED IN THE SPECIAL COMFORT COOLING INFORMATION PROVIDED WITH THIS MANUFACTURED HOME.

☒ AIR CONDITIONER NOT PROVIDED AT FACTORY

THE AIR DISTRIBUTION SYSTEM OF THIS HOME IS SUITABLE FOR THE INSTALLATION OF CENTRAL AIR CONDITIONING. THE SUPPLY AIR DISTRIBUTION SYSTEM INSTALLED IN THIS HOME IS SIZED FOR MANUFACTURED HOME CENTRAL AIR CONDITIONING SYSTEM OF UP TO 42,767 B.T.U./HR. RATED CAPACITY WHICH ARE CERTIFIED IN ACCORDANCE WITH THE APPROPRIATE AIR CONDITIONING AND REFRIGERATION INSTITUTE STANDARDS. WHEN THE AIR CIRCULATORS OF SUCH AIR CONDITIONERS ARE RATED AT 0.3 INCH WATER COLUMN STATIC PRESSURE OR GREATER FOR THE COOLING AIR DELIVERED TO THE MOBILE HOME SUPPLY AIR DUCT SYSTEM. INFORMATION NECESSARY TO CALCULATE COOLING LOADS AT VARIOUS LOCATIONS AND ORIENTATIONS IS PROVIDED IN THE SPECIAL COMFORT COOLING INFORMATION PROVIDED WITH THIS MANUFACTURED HOME.

COMFORT HEATING

THIS MANUFACTURED HOME HAS BEEN THERMALLY INSULATED TO CONFORM WITH THE REQUIREMENTS OF THE FEDERAL MANUFACTURED HOME CONSTRUCTION AND SAFETY STANDARDS FOR ALL LOCATIONS WITHIN U/D ZONE 1.

MANUFACTURER: NONE
MODEL:

THE ABOVE HEATING EQUIPMENT HAS THE CAPACITY TO MAINTAIN AN AVERAGE 70 °F TEMPERATURE IN THIS HOME AT OUTDOOR TEMPERATURES OF NA °F. TO MAXIMIZE FURNACE OPERATING ECONOMY, AND TO CONSERVE ENERGY, IT IS RECOMMENDED THAT THIS HOME BE INSTALLED WHERE THE OUTDOOR WINTER DESIGN TEMPERATURE (97 1/2%) IS NOT HIGHER THAN NA DEGREES FAHRENHEIT. THE ABOVE INFORMATION HAS BEEN CALCULATED ASSUMING A MAXIMUM WIND VELOCITY OF 15 MPH AT STANDARD ATMOSPHERIC PRESSURE.

AIR CONDITIONER SIZING INFORMATION NECESSARY TO CALCULATE SENSIBLE HEAT GAIN TO DETERMINE THE REQUIRED CAPACITY OF EQUIPMENT TO COOL A HOME EFFICIENTLY AND ECONOMICALLY. A COOLING LOAD (HEAT GAIN) CALCULATION IS REQUIRED. THE COOLING LOAD IS DEPENDENT ON THE ORIENTATION, LOCATION AND THE STRUCTURE OF THE HOME. CENTRAL AIR CONDITIONERS OPERATE MOST EFFICIENTLY AND PROVIDE THE GREATEST COMFORT WHEN THEIR CAPACITY CLOSELY APPROXIMATES THE CALCULATED COOLING LOAD. EACH HOME'S AIR CONDITIONER SHOULD BE SIZED IN ACCORDANCE WITH CHAPTER 22 OF THE AMERICAN SOCIETY OF HEATING, REFRIGERATING AND AIR CONDITIONING ENGINEERS (ASHRAE) HANDBOOK OF FUNDAMENTALS 1989 EDITION, ONCE THE LOCATION AND ORIENTATION ARE KNOWN.

COMFORT COOLING

☐ AIR CONDITIONER PROVIDED AT FACTORY

THE CENTRAL AIR CONDITIONING SYSTEM PROVIDED WITH THIS HOME HAS BEEN SIZED ASSURING AN ORIENTATION OF THE FRONT (HITCH END) OF THE HOME FACING ON THIS BASIS THE SYSTEM IS DESIGNED TO MAINTAIN AN INDOOR TEMPERATURE OF 75 °F WHEN OUTDOOR TEMPERATURES ARE F DRY BULB AND 4

WET BULB. THE TEMPERATURE TO WHICH THIS HOME CAN BE COOLED WILL CHANGE DEPENDING UPON THE AMOUNT OF EXPOSURE OF THE WINDOWS OF THIS HOME TO THE SUN'S RADIANT HEAT. THEREFORE, THE HOME'S HEAT GAINS WILL VARY DEPENDENT UPON ITS ORIENTATION TO THE SUN AND ANY PERMANENT SHADING PROVIDED. INFORMATION CONCERNING THE CALCULATION OF COOLING LOADS AT VARIOUS LOCATIONS, WINDOW

The following 'U' values are provided in the construction of this home

1) Walls (without windows and doors)	0.095
2) Ceilings and Roofs of Light Color	0.030
3) Ceilings and Roofs of Dark Color	0.030
4) Floor	0.095
5) Air Ducts in Floor	NONE
6) Air Ducts in Ceiling	0.030
7) Air Ducts Installed Outside the Home	NONE

The following are the duct area in this home

1) Air Ducts in Floor	NONE sq. ft.
2) Air Ducts in Ceiling	54 sq. ft.
3) Air Ducts Outside the Home	NONE sq. ft.

CAUTION

Installation of an Conditioning equipment must be made in such a manner that simultaneous operation of heating and air conditioning equipment is prevented

NOTICE

EXPOSED WATER PIPING SUBJECT TO FREEZING SHOULD BE PROTECTED BY

SKY341
