OMB Approval No. 3520-0025
(exp. 09/30/2027)

New Construction Subterranean Termites Service Record

This form is completed by the licensed Pest Control Company

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This information collection is required to obtain benefits. HUD may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

Section 24 CFR 200.926(b)(3) requires that the site for HUD insured structures must be free of termite hazards. This information collection requires the builder to certify that an authorized pest control company performed all required treatment for termites, and that the builder guarantees the treated area against future termite infestation. HUD requires that the pest control company, mortgage lenders, home buyers, and HUD as a record of treatment for specific homes will use the information collected. The information is not considered confidential; therefore, no assurance of confidentiality is provided.

This report is submitted for informational purposes to the builder on proposed (new) construction cases when treatment for prevention of subterranean termite infestation is specified by the builder, architect, or required by the lender, architect, FHA, or VA.

All contracts for services are between the Pest Control company and builder, unless stated otherwise.
