

A photograph showing a long, light-colored wooden beam lying on a dark, textured surface, likely a roof. A yellow measuring tape is stretched along the length of the beam, indicating its measurement. The beam has several small, dark, circular marks or holes along its length. The background consists of dark, rectangular tiles or shingles. In the top right corner, there is a pile of brown, fibrous material, possibly mulch or debris. The text "Permit # 48280" is overlaid in the bottom right corner.

Permit # 48280

A vertical wooden plank, likely a piece of construction material, is positioned on a dark asphalt surface. The plank has a light-colored wood grain and a prominent yellow stripe running vertically down its center. Several small, dark circular marks, possibly nail holes or knots, are visible on the wood. The background consists of dark asphalt with irregular patches of light-colored gravel. The text "Permit # 48280" is overlaid on the left side of the image.

Permit # 48280
