re: ENGINEER'S STRUCTURAL CERTIFICATION – 721 SW CENTRAL TERRACE, FORT WHITE, FL

As requested, I have reviewed the tie-downs and foundation construction at the referenced property. A foundation and an anchor system were previously constructed to support the home and anchor the home to the ground. The home is in its original location.

The purpose of this certification is to verify that the constructed foundation is a permanent foundation system in accordance with FHA standards. In my professional opinion, this foundation meets HUD's requirements as published in the *Permanent Foundation Guide for Manufactured Housing* dated September 1996.

Should you have any questions, please don't hesitate to contact me.

Respectfully,

Carol Chadwick, P.E.

This item has been digitally signed and sealed by Carol Chadwick, P.E. on the date adjacent to the seal. Printed copies of this document are not considered signed and sealed and the signature must be verified on any electronic copies.

This report is limited to field observations. The observations were cursory; no subsurface investigation was completed. Recommendations are based on these observations. Other conditions not visible at the surface may be present. I am unable to certify or guarantee no future deterioration, settlement or movement of the structure.
