

# CLOSE PERMIT

Permit #: 46672

Address: 340 SW Saint Johns St

License #: CCC1330410

Contractor: Tyler Turner

## Comments:

We are looking to close this permit since the homeowner does not want to move forward with it anymore. Before starting the roof, when we did our inspection, it appeared there were 2 layers of shingle that would need to be torn up. Upon starting this roof, we discovered there were two layers of shingle on top of a plywood decking that was installed over another two layers of shingle. We informed the homeowner of this and of the additional cost. The homeowner now does not want to proceed forward.

Please close out this permit.

For questions, please call 352-888-4676
