If questions regarding the operation, maintenance, warranty or performance of this mobile home should arise please contact the dealer from whom it was purchased, the manufacturing plant listed above or:

Prestige Home Centers, Inc.  
4300 S. Pine Avenue  
Ocala, FL 32671

Answers to most questions regarding operation, installation, maintenance and design specifications are found in the appropriate sections of the owner's manual and information sheet and installation instructions furnished with each mobile home.

## STRUCTURAL DESIGN BASIS CERTIFICATE

## HEATING AND COOLING DESIGN BASIS CERTIFICATE

### CURRENT HEATING CERTIFICATE

The mobile home has been structurally designed to comply with the requirements of the Federal Mobile Home Construction and Safety Standards for all components of the heating system.

The air distribution system of this home is suitable for the installation of a furnace heating unit.

The heating equipment shall have the capacity to maintain an average 70°F temperature in this home.

Information necessary to determine heating loads or various locations and arrangements is provided in the separate heating information provided on this page.

### CURRENT COOLING CERTIFICATE

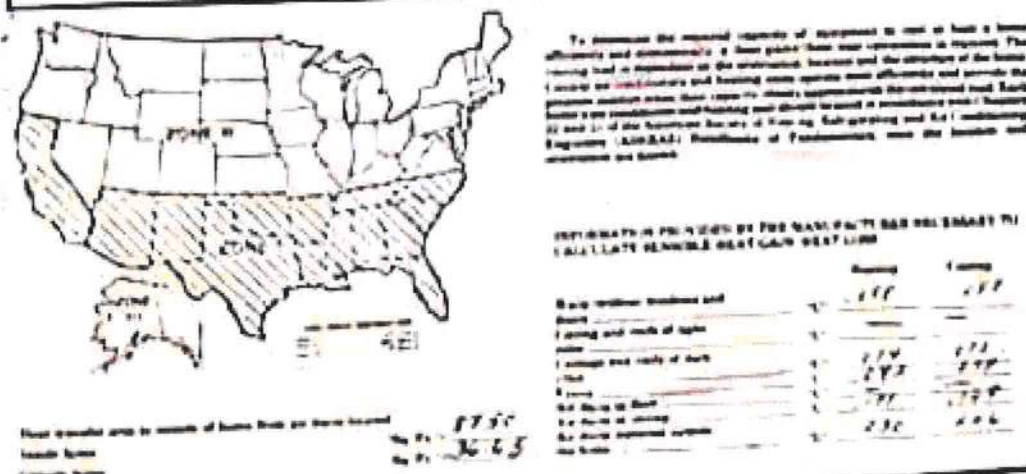

The air distribution system of this home is suitable for the installation of central air conditioning.

The people in this home intend to use air conditioning in this home as follows:

1. For year-round use, which is subject to acceptance with the appropriate Air Conditioning and Refrigeration Engineers' Association when the air conditioning unit is installed.

2. For seasonal use, which is subject to acceptance with the appropriate Air Conditioning Engineers' Association when the air conditioning unit is installed.

Information necessary to determine cooling loads or various locations and arrangements is provided on this page.
