APPLICATION FOR BUILDING PERMIT/COMPLIANCE

\$50.00 FEE

FILE No. _____ RECPT No. _____

Applicant's Name: CRB Investment Properties, LLC
Address: 476 SW BARRS Glen LAKE City, FL 32024

Owner's Name: _____ Phone: _____

Address: _____

Contractor's Name: _____

Address: _____

****Location of property: 14448-000
Yulan St.

****Type of development: Duplex

Land use & zoning: RSF-2 / low
Minimum set-back: Street-front/side 25' rear 15' side 10'

Legal Description (acres): _____

I certify that all work will be performed to meet the standards of all laws regulating construction in this jurisdiction and that all the foregoing information is accurate and all work will be done in compliance with all laws regulating construction and zoning.

CBC 1253543
Contractor's License Number

11-12-2020
Date

James Mark Lissac
Applicant/Owner Contractor

Connie J. Breakeen
Approved by Reviewing Clerk

*****IF PROPERTY IS NOT OWNED BY APPLICANT, A STATEMENT FROM THE OWNER AUTHORIZING USE OF PROPERTY FOR THE TYPE OF DEVELOPMENT STATED ON THIS APPLICATION WILL BE REQUIRED.

Effective Flood Information Report

- | | | | | | | | |
|--|---|--|-------------------------------|--|-----------------------|--|------------------|
| | 1% Flood - Floodway (High Risk) | | 1% Flood - Zone VE (HighRisk) | | Depressions | | FIRM Panel Index |
| | 1% Flood - Zone AE (High Risk) | | Floodway Increase | | Base Flood Elevations | | Parcels |
| | 1% Flood - Zone A, AH, or AO (HighRisk) | | SFHA Decrease | | Cross Sections | | River Marks |
| | 0.2% Flood - X-Shaded (Moderate Risk) | | SFHA Increase | | County Boundaries | | Wetlands |

The Federal Emergency Management Agency (FEMA) maintains information about map features, such as street locations and names, in or near designated flood hazard areas. The information herein represents the best available data as of the effective date shown. The applicable Flood Insurance Study and a Digital Flood Insurance Rate Map is available online (<http://www.srwmdfloodreport.com>). To obtain more detailed information in areas where Base Flood Elevations (BFEs) and/or floodways have been determined, users are encouraged to also consult the FEMA Map Service Center at 1-800-358-9616 (<http://www.msc.fema.gov>) for information on available products associated with this FIRM panel. Available products from the Map Service Center may include previously issued Letters of Map Change.

Requests to revise flood information in or near designated flood hazard areas may be provided to FEMA during the community review period on preliminary maps, or through the Letter of Map Change process for effective maps.

FLOOD INFORMATION

Special Flood Hazard Area?
(SFHA): No

Flood Zone(s):

Floodway: No

1% Annual Chance
Flood Elev (BFE): Not Applicable

10% Annual Chance
Flood Elev: Not Applicable

50% Annual Chance
Flood Elev: Not Applicable

Note: Elevations are based on NAVD88

FIRM Panel(s): 12023C0490C

Base Flood Elevation (BFE)

The elevation shown on the Flood Insurance Rate Map for Zones AE, AH, A1-A30, AR, AO, V1-V30, and VE that indicates the water surface elevation resulting from a flood that has a one percent chance of equaling or exceeding that level in any given year.

A

Areas with a 1% annual chance of flooding and a 26% chance of flooding over the life of a 30-year mortgage. Because detailed analyses are not performed for such areas, no depths or base flood elevations are shown within these zones.

AE, A1-A30

Areas with a 1% annual chance of flooding and a 26% chance of flooding over the life of a 30-year mortgage. In most instances, base flood elevations derived from detailed analyses are shown at selected intervals within these zones.

AH

Areas with a 1% annual chance of flooding and a 26% chance of flooding over the life of a 30-year mortgage. Usually areas of ponding with flood depths of 1 to 3 feet. Base Flood Elevations are determined.

AO

Areas with a 1% annual chance of flooding and a 26% chance of flooding over the life of a 30-year mortgage. Usually areas of sheet flow on sloping terrain with flood depths of 1 to 3 feet. Base Flood Elevations are determined.

Supplemental Information:

10%-chance flood elevations (10-year flood-risk elevations) and 50%-chance flood elevations (2-year flood-risk elevations), are calculated during detailed flooding studies but are not shown on FEMA Digital Flood Insurance Rate Maps (FIRMs). They have been provided as supplemental information in the Flood Information section of this report.

AE FW (FLOODWAYS)

The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood (1% annual chance flood event). The floodway must be kept open so that flood water can proceed downstream and not be obstructed or diverted onto other properties.

Please note, if you develop within the regulatory floodway, you will need to contact your Local Government and the Suwannee River Water Management District prior to commencing with the activity. Please contact the District at 800.226.1066.

VE

Areas with a 1% annual chance of flooding over the life of a 30-year mortgage with additional hazards due to storm-induced velocity wave action. Base Flood Elevations (BFEs) derived from detailed analyses.

X 0.2 PCT (X Shaded, 0.2 PCT ANNUAL CHANCE FLOOD HAZARD)

Same as Zone X; however, detailed studies have been performed, and the area has been determined to be within the 0.2 percent annual chance floodplain (also known as the 500-year flood zone). Insurance purchase is not required in this zone but is available at a reduced rate and is recommended.

X

All areas outside the 1-percent annual chance floodplain are Zone X. This includes areas of 1% annual chance sheet flow flooding where average depths are less than 1 foot, areas of 1% annual chance stream flooding where the contributing drainage area is less than 1 square mile, or areas protected from the 1% annual chance flood by levees. No Base Flood Elevations or depths are shown within this zone. Insurance purchase is not required in these zones.
