## PROJECT DESCRIPTION

Cindy Koon would like to permit improvements to Lot 22, Unit 1, Three Rivers Estates located in Section 23, Township 6 South, Range 15 East, Columbia County, Florida. Property address is 676 SW Riverside Avenue, Fort White, FL. The parcel number for the property is 00-00-00-00543-001. The permit will be for the construction of a 40' by 10' addition on the front of an existing home. The proposed structure is not located within 75 feet of the Ichetucknee River.

## ANALYSIS

The attached SRWMD Flood Report shows the base flood elevation is 33.1. The area of the Zone AE flood plain 100' upstream and 100' downstream is 295727 s.f. or 6.79 acres. The area of the proposed structure is 400 s.f. The proposed structure is 0.14 percent of the flood plain which will not cause a rise in the base flood elevation.

## CONCLUSION

Calculations show no increase in the base flood elevation.

## ONE FOOT RISE CERTIFICATION

CAROL CHADWICK, P.E.

## ONE FOOT RISE CERTIFICATION

Owner: Cindy Koon

Property Address: 676 SW Riverside Avenue  
Fort White, FL

Property Description: Lot 27, Unit 1, Three Rivers Estates  
Section 23, Township 6 South, Range 15 East  
Columbia County, Florida

Structure in Floodway: 40' x 10' addition to an existing home

Elevation of 100-year flood: 33.1 feet (SRWMD Flood Report)

Community Panel: 12023C 0458C

I hereby certify that the construction of the proposed carport will not obstruct flow or cause more than a 1.00 foot rise in the 100-year flood elevation of the Ichetucknee River.

Know your risk.

[www.srwmdfloodreport.com](http://www.srwmdfloodreport.com)

The information herein represents the best available data as of the effective map date shown. The Federal Emergency Management Agency (FEMA) Flood Map Service Center (<https://msc.fema.gov>) maintains the database of Flood Insurance Studies and Digital Flood Insurance Rate Maps, as well as additional information such as how the Base Flood Elevations (BFEs) and/or floodways have been determined and previously issued Letters of Map Change. Requests to revise flood information may be provided to the District during the community review period on preliminary maps, or through the appropriate process with FEMA Change Your Flood Zone Designation | [FEMA.gov](https://www.floodsmart.com). Information about flood insurance may be obtained at (<https://www.floodsmart.com>)

### Base Flood Elevation (BFE)

The elevation shown on the Flood Insurance Rate Map for Zones AE, AH, A1-A30, AR, AO, V1-V30, and VE that indicates the water surface elevation resulting from a flood that has a one percent chance of equalling or exceeding that level in any given year.

#### A

Areas with a 1% annual chance of flooding and a 26% chance of flooding over the life of a 30-year mortgage. Because detailed analyses are not performed for such areas; no depths or base flood elevations are shown within these zones.

#### AE, A1-A30

Areas with a 1% annual chance of flooding and a 26% chance of flooding over the life of a 30-year mortgage. In most instances, base flood elevations derived from detailed analyses are shown at selected intervals within these zones.

#### AH

Areas with a 1% annual chance of flooding and a 26% chance of flooding over the life of a 30-year mortgage. Usually areas of ponding with flood depths of 1 to 3 feet. Base Flood Elevations are determined.

#### AO

Areas with a 1% annual chance of flooding and a 26% chance of flooding over the life of a 30-year mortgage. Usually areas of sheet flow on sloping terrain with flood depths of 1 to 3 feet. Base Flood Elevations are determined.

### Supplemental Information:

10%-chance flood elevations (10-year flood-risk elevations) and 50%-chance flood elevations (2-year flood-risk elevations), are calculated during detailed flooding studies but are not shown on FEMA Digital Flood Insurance Rate Maps (FIRMs). They have been provided as supplemental information in the Flood Information section of this report.

### AE FW (FLOODWAYS)

The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood (1% annual chance flood event). The floodway must be kept open so that flood water can proceed downstream and not be obstructed or diverted onto other properties.

Please note, if you develop within the regulatory floodway, you will need to contact your Local Government and the Suwannee River Water Management District prior to commencing with the activity. Please contact the District at 800.226.1066.

#### VE

Areas with a 1% annual chance of flooding over the life of a 30-year mortgage with additional hazards due to storm-induced velocity wave action. Base Flood Elevations (BFEs) derived from detailed analyses.

### X 0.2 PCT (X Shaded, 0.2 PCT

#### ANNUAL

### CHANCE FLOOD HAZARD)

Same as Zone X; however, detailed studies have been performed, and the area has been determined to be within the 0.2 percent annual chance floodplain (also known as the 500-year flood zone). Insurance purchase is not required in this zone but is available at a reduced rate and is recommended.

#### X

All areas outside the 1-percent annual chance floodplain are Zone X. This includes areas of 1% annual chance sheet flow flooding where average depths are less than 1 foot, areas of 1% annual chance stream flooding where the contributing drainage area is less than 1 square mile, or areas protected from the 1% annual chance flood by levees. No Base Flood Elevations or depths are shown within this zone. Insurance purchase is not required in these zones.
