Importance: High

Kevin,
David Kraus told me to check with you on issuing this permit.
David Wood came in to get a permit for power to the railroad crossing arms at the spur for the NF Mega Industrial Park. He said it was located in the right-of-way on US 90. Do I have permission to issue him this electrical permit?
Thank you,

Laurie Hodson

I am good with issuing the permit. Double check with Kevin who is project person.

David
