

A close-up photograph of a particleboard (OSB) surface. A yellow measuring tape is placed vertically along the center of the board, showing measurements from 30 to 47 inches. A blue adhesive tape is applied along the left edge of the board, overlapping the measuring tape. The particleboard has a characteristic rough, fibrous texture with visible wood chips and strands. The text "Permit #43501" is overlaid on the right side of the image.

Permit #43501
