re: ENGINEER'S CERTIFICATION – 153 SW BREEZY DRIVE, LAKE CITY, FL

I personally inspected the manufactured structure located at the above referenced address. The structure was previously used as an office but will be converted to a residential accessory storage structure. There will be no sleeping quarters or plumbing in the structure. It will be used for climate controlled storage. There will be no bedrooms/closets, kitchen, living room or tub/shower in the structure.

Tie-downs shall have a maximum spacing of 5'-4" on center with anchors placed within two feet of each end. Blocking and tie-downs shall be installed per Florida Building Code, 2020, HUD requirements and Department of Highway Safety and Motor Vehicles, Division of Motor Vehicles, Chapter 15C-1.

Should you have any questions, please don't hesitate to contact me.

Respectfully,
