I have elected to use one or more private providers to provide building code plans review and/or inspection services on the building that is the subject of the enclosed permit application, as authorized by s. 553.791, Florida Statutes. I understand that the local building official may not review the plans submitted or perform the required building inspections to determine compliance with the applicable codes, except to the extent specified in said law. Instead, plans review and/or required building inspections will be performed by licensed or certified personnel identified in the application. The law requires minimum insurance requirements for such personnel, but I understand that I may require more insurance to protect my interests. By executing this form, I acknowledge that I have made inquiry regarding the competence of the licensed or certified personnel and the level of their insurance and am satisfied that my interests are adequately protected. I agree to indemnify, defend, and hold harmless the local government, the local building official, and their building code enforcement personnel from any and all claims arising from my use of these licensed or certified personnel to perform building code inspection services with respect to the building that is the subject of the enclosed permit application.

I understand the Building Official retains authority to review plans, make required inspections, and enforce the applicable codes within his or her charge pursuant to the standards established by s. 553.791, Florida Statutes. If I make any changes to the listed private providers or the services to be provided by those private providers, I shall, within 1 business day after any change, update this notice to reflect such changes. The building plans review and/or inspection services provided by the private provider is limited to building code compliance and does not include review for fire code, land use, environmental or other codes.

The following attachments are provided as required:

1. Qualification statements and/or resumes of the private provider and all duly authorized representatives.
2. Proof of insurance for professional and comprehensive liability in the amount of \$1 million per occurrence relating to all services performed as a private provider, including tail coverage for a minimum of 5 years subsequent to the performance of building code inspection services.

NOTICE TO BUILDING OFFICIAL
CLARIFICATION

s. 553.791, Fla. Stat. states “[a] fee owner of the fee owner’s contract using a private provider to provide building code inspection services shall notify the local building official in writing at the time of permit application, or by 2 p.m. local time, 2 business days before the first scheduled inspection by the local building official or building code enforcement agency that a private provider has been contracted to perform the required inspections of construction under this section, including single-trade inspections, *on a form to be adopted by the commission.*” The Florida Building Commission has adopted no such form, and since they have not adopted such a form the NTBO submitted with this packet is legally compliant as it contains the requisite information per statute.

Section 553.791 (16)(a), Fla. Stat. states “[a] local enforcement agency, local building official, or local government may not adopt or enforce any laws, rules, procedures, policies, qualifications, or standards more stringent than those prescribed by this section”. Any policy that is not a mere repetition of the Florida Building Code Act, the Florida Building Code, or the registration of private providers as per s. 553.791 (16)(b), Fla. Stat., is unenforceable.

Any requests to submit the NTBO on any form other than what has been provided in this packet cannot be enforced and may be denied by the private provider and/or the contractor.

Also, a Contractor may sign the NTBO as an agent of the Fee Owner. If the Contractor has a signed agreement with the Fee Owner, s/he may sign the NTBO as an agent of the Fee Owner.
