

The diagram illustrates the layout of a proposed septic system and an existing concrete slab. Key features and dimensions include:

- Proposed Septic:** A rectangular structure located at the top of the plan.
- Existing concrete slab:** A rectangular structure located below the proposed septic.
- Setbacks:**
 - 90' setback from the left property line to the existing concrete slab.
 - 90' setback from the right property line to the existing concrete slab.
 - 90' setback from the bottom property line to the existing concrete slab.
 - 60' setback from the top property line to the existing concrete slab.
- Structure Dimensions:**
 - Proposed Septic: 60' wide and 27' deep.
 - Existing concrete slab: 60' wide and 27' deep.
- Driveway:** Indicated by two parallel lines at the bottom right corner.
