INCIDENT NARRATIVE				

Engines 42, 51, 43, 48, Tankers 42, 51, 43, 48, Battalion 48 were dispatched to report location for a structure fire. Units responded from respective quarters. E42 arrived to find double-wide mobile home, half involved on the D side. Pulled 1-3/4"x200 pre-connect to begin extinguishment. E51 and T51 arrived. T51 parked and placed behind E42 as nurse tanker. 51 personnel joined E42 firefighter for interior push from front door. Interior attack was pushed back by heat and flashover of area. Transitioned to exterior attack. Fire was knocked back with exterior hand lines and crews were moved back to interior/offensive attack. Fire was knocked down and crews began extensive overhaul efforts. Extensive damage was sustained to entire structure and contents. Crews cleared scene and returned to service.

INCIDENT NARRATIVE

Conversation with the homeowner found that she had emptied the wood burning stove/fireplace ashes into a barbeque grill lid and placed them on the back porch. She then went in to take a shower. When she came out of the shower, she stated that the back of the house was involved in fire with fire coming through the wall and windows. She evacuated the home and called 9-1-1.

Burn area appeared to corroborate this statement.

Approximately 18000 gallons of water used.

Unit Narrative			

E43 was on a med call when the structure fire came out. The med crew stated they were good if we needed to clear. I advised dispatch that we would be en route to St 43 to pick up our tanker. Once getting T43 we went en route to the structure fire. 43 units arrived on scene to find crew inside making an interior attack. We assisted with extinguishment operations. Once the fire was extinguished we assisted with mop up and overhaul operations. After mop up and overhaul was completed we assisted breaking down hose lines and getting tools back on trucks. At this time Batt 48 told us we were good to clear. No further assistance was needed. Assignment complete.
