RE: Equipment Purchase

---

Attached is a request from Landfill Director, Ed Lontz. He is requesting to replace a skid steer that was originally not on the previously approved equipment replacement list for fiscal year 2020. At the time evaluations were performed on the equipment the skid steer was performing well. However, since that time the motor has ceased to function.

Quotes are attached for the repair and current value of the skid steer. As you will see the repair would far exceed the current value.

The replacement would require a budget amendment to transfer funds from equipment reserve.

Please advise how you wish to proceed.

If you should need any additional documentation, please contact me.

RE: Equipment Replacement – EQ435 Bobcat- Serial #514416155

---

Please be advised that per the County Equipment Replacement Policy section 5.7(d) Acquisition Process: “A special replacement request may be initiated by a department during the year to the Equipment Replacement Team”.

Upon communication with Dewey Moore, I am requesting replacement of our 1997 Bobcat 863 Skid Steer. Attached is the Equipment Replacement Evaluation Summary Report along with backup documentation regarding repair cost \$21,013 and current value less than \$5,000.

Therefore, at this time I would like to request replacement of this equipment. I have attached a quote of FL Sheriff's Contract Bid # FSA-18-VEH16.0 Specification #71 for \$31,534. This would require re-allocation of funds from reserves to the equipment purchase account.

Please advise as how to proceed.
