While not included in our Water Treatment Program, please remember Legionella Testing is something we can provide in addition to the products and services covered by this agreement. This type of testing is fast becoming a protocol for owners and operators of cooling towers. In fact, testing is already mandated in certain industries and jurisdictions.

You may indicate your acceptance by signing below and returning a copy of this agreement by e-mail to LJoplin@premierwater.com or by faxing a copy to 904-268-6851. If a Purchase Order is required, please provide information on the line below or fax/email a copy of same. For your convenience, we will continue to invoice per the terms and conditions outlined in this agreement unless otherwise notified.

We appreciate your business and look forward to working with you in the year ahead!

Sincerely,

Andy Seeker
Water Treatment Consultant
PREMIER WATER & ENERGY TECHNOLOGY, INC.

We agree to continue our Water Treatment Agreement for the period of October 1, 2021 until September 30, 2022. The billing will remain \$598.00 and be billed monthly.

Re: Water Treatment Program – Courthouse

The anniversary date of our **Water Treatment Agreement** is October 1, 2022. Thank you for allowing Premier Water & Energy Technology, Inc. to partner with you over the past year. We trust that we have met your expectations and seek to exceed them in the coming year.

The annual price for the products and services you have come to expect as part of your Water Treatment Program will be \$6,495.60. We will bill you in monthly installments of \$541.30 each. This amount **does not include any applicable taxes**. *Should trends in water, operating, load characteristics, or equipment malfunction result in changes in consumption, we agree to mutually renegotiate pricing to cover these events.*

Our Water Treatment Program includes control of corrosion and biological growth, prevention of mineral deposits on heat transfer surfaces for the following systems:

- One (1) Condenser Water System (2 York 250 ton Chillers)
- Two (2) Closed Loop Systems (1-Chilled/1-Hot)

Premier Water also includes Water Treatment Control Equipment insurance, which means that we will replace any equipment that malfunctions.

Our services will continue to include, but are not limited to, laboratory services, routine on-site service visits, treatment products and reagents as needed. All automatic control equipment will be checked for proper operation and adjustments made as necessary. Service reports will be emailed to you or your designated representative, as well as a copy being left onsite.

To most effectively manage your Water Treatment Program, our proprietary web-based service system “**Premier eReports**” is also included. **Premier eReports** provides one easy access, paperless location, to store all of your Service Reports, Operator Logs, Lab Results, Inspections, and Inventory Reports.

While not included in our Water Treatment Program, please remember Legionella Testing is something we can provide in addition to the products and services covered by this agreement. This type of testing is fast becoming a protocol for owners and operators of cooling towers. In fact, testing is already mandated in certain industries and jurisdictions.

You may indicate your acceptance by signing below and returning a copy of this agreement by e-mail to LJoplin@premierwater.com or by faxing a copy to 904-268-6851. If a Purchase Order is required, please provide information on the line below or fax/email a copy of same. For your convenience, we will continue to invoice per the terms and conditions outlined in this agreement unless otherwise notified.

We appreciate your business and look forward to working with you in the year ahead!

Sincerely,
